Börkey 909 Euro-Drill

NEW

The Euro-Drill from Börkey is a quality investment for today's modern locksmith. This machine is designed to precisely duplicate a wide variety of dimple and track keys. Once relegated to only the highest-end automobiles, track keys are now increasingly common on many different vehicles.

Features of the Euro-Drill include:

• Automatic magnetic locking system for cutters and tracers

•Selectable motor speeds of 5,000 and 10,000 RPM

• Anti-twist jaws that can be synchronously rotated up to 45 ˚

• Electronic adjustment of the cutter and tracer with LED display

• Comes with 5 matched pairs of cutters and tracers
and a drawer to hold them

• Made in Germany by Börkey: in business since 1851

As with all Börkey machines, the Euro-Drill is a heavy-duty workhorse that will earn you money over its long working life.

Euro-Drill Key Machine

#BOR-909 $5795.00

Interested in equipment leasing/ purchasing your new key machine?

We can put you in touch with a company that will take the application for you and make a fast credit decision.
Call MBA for details.

Börkey Euroline

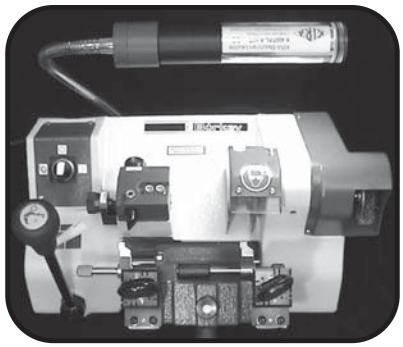
MBA is pleased to present a new key machine from Börkey, makers of the machines legendary for their accuracy and jaws of extraordinary strength. The Euroline is a semi-automatic duplicator designed to copy standard cylinder, double-sided car keys, and even cross keys with great accuracy and efficiency. Four-way jaws give legendary gripping power on a wide variety of "tough-to-hold" keys. Weighing in at a hefty 64 pounds, this machine is designed to withstand the rigors of heavy use in the busiest shops. The Euroline boasts a work light and deburring brush as standard equipment. Available in North America exclusively from MBA USA, Inc. Check our web site for downloads on this machine.

Euroline Key Machine

#BOR-396 $2795.00

Börkey

Börkey Rexa 2000+



This semi-automatic powerhouse features four-way jaws capable of firmly gripping everything from interchangeable core keys to virtually any foreign car key.
Supplemental gripping devices are available to hold cross-keys, Tibbe keys and other unusual keys.
In addition to the shoulder gauge, lift wires and tip-stops allow for accurate alignment of any key up to 4-1/2" inches long.
Calibrated micro-adjustable space and depth controls allow the operator to easily compensate for worn or even broken keys.
Keys requiring very deep cuts in the first space are easily handled by the specially shaped cutter.
The Rexa 2000 comes with important safety features any locksmith will appreciate. These include a "hold-back" feature to keep the cutter from hitting the jaw, plus a carriage safety that prevents cutting into the shoulder gauge. A shrouded cutter and brush are two more features that make this 74 pound workhorse as safe as it is accurate and reliable. A light for the Rexa is also included.

Börkey 994 Rexa 2000 Plus

KEY MACHINES

Börkey Ecos 208

A new generation of leadership at Börkey is pioneering a fresh technical outlook for that company. We are pleased to introduce the ECOS electronic key machine with 5.7" color touch-screen display and precision optical key reader. The heavy duty ECOS is capable of totally stand-alone operation using an integrated computer running Windows CE 5.0. Copy keys by electronically reading the sample key, or input the cuts yourself to originate a key.

Four-way reversible jaws made of high-quality precision tool steel hold a wide variety of blanks with legendary Börkey grip. A transparent cover with safety switch protects the user from the rotating cutter, and provides control of cutting swarf.

The ECOS is a workhouse that is a perfect fit for the busiest shops where accuracy and speed are everything.

Börkey Model 173 Lord II

Standard Bit Carriage - The "standard" Lord machine comes with a single-bit carriage designed for safe and door keys. You get limited rotation on the jaw holding the blank, which yields radius cuts. Both the original and blank keys can be any length. Supplied with 3 cutters and matching tracers. Special order only.

Double Bit Carriage - This version of the Lord machine is equipped with a double-bit carriage designed for complex safe and door keys. You get 360˚ rotation on the jaw holding the blank, which yields radius cuts. Supplied with a set of stabilizers for both solid and hollow keys, 3 cutters and matching tracers. Special order only.

Southern Steel Carriage (Prison) - A specially modified version of the Lord machine that is designed to cut lever-type keys. It is extremely accurate and durable and used in prisons throughout the U.S. Very rugged construction. Comes with 3 cutters and matching tracers. Special order only.

Börkey Model 173 Lord II

Standard Carriage - Single Bit Keys
#BOL-173/2S $6500.00

Double Bit Carriage - Double Bit Keys
#BOL-173/2-A $8250.00

Southern Steel Carriage - Modified for prison keys
#BOL-173/2MODSS $6500.00

Carriages

Carriage/Single-Bit Keys

Carriage/Side Grooves
#BOL-173/2N $1600.00

Carriage/Double-Bit
#BOL-173/CAD $3250.00

Börkey EuroCompact 200

Another fine machine from Börkey. The EuroCompact 200 duplicates single-bit safe, furniture, and door keys. What sets this machine apart from others is that it actually makes a radius cut on the key being duplicated! This yields a smooth working, trouble-free key. Comes complete with 3 cutters and matching tracers. The EuroCompact is used throughout Europe and MBA is pleased to be the exclusive importer to the U.S. 110 Volts, complete with light and tool kit.

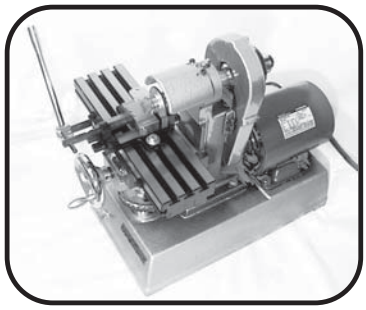
Keyway King



Create or modify existing blanks by adding grooves and modifying lands. The result is a professionally modified blank with a minimum of time and labor. Quality construction with cutters (16 different profiles included) that change quickly. The vises hold keys securely for accurate milling. Features a movable table activated by a lever arm that controls the travel of the table. Heavy duty design guarantees years of use.

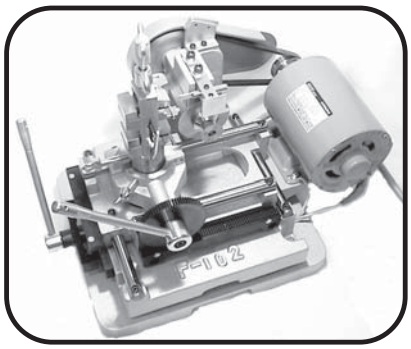
Steel King



Designed to copy flat and bit keys precisely and at high speed. With the use of the two cutters, all cuts can be duplicated without removing the sample key or blank from the vises. This includes side and end cuts on flat steel as well as pass cuts, lever cuts, and ward cuts on bit keys. Two rack and pinion mechanisms drive the carriage from front to back and from left to right with the use of lever handles for good operator control. Replacement cutters and parts are also available.

KEY MACHINES

Transponder Machine

The TRS-5000 transponder machine is capable of cloning the majority of fixed transponder keys. (Texas, Temic Fix Megamos) and can clone more automotive keys than any other device available on the market. This machine comes with updatable software. Connecting to a PC allows you to update software, read, store and modify codes and create a database. Cloning is an easy two step process: Read and Copy. This machine is small, lightweight and easy to use.

A variety of blanks are available including Toyota, Ford, Hyundai, Lexus, Mazda Mistsubishi, and Subaru with more manufacturers and vehicle types on the way. These keyblanks can be used to duplicate TP02 and TP07 transponder keys. Log on to our web site for more information and a complete list of the available blanks.

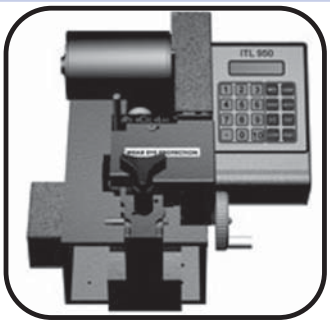
ITL 950 Code Machine



The ITL950M has space and depth information for hundreds of locks built right into the machine. You can create an original key in seconds for automotive, household, and commercial locks - including Medeco™ standard Biaxial. The built-in computer can even create masterkey systems for you and then cut each key! As if that weren't enough, you can also cut keys directly using many third party software code programs (not included) by connecting the ITL950M to your computer. Equipped with Medeco™ cutter.

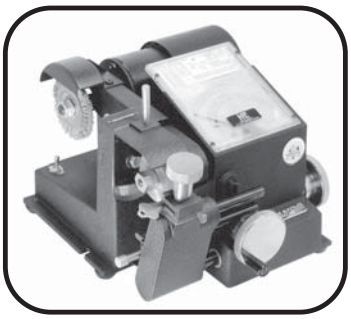
With Medeco™ Cutter
#ITL19 ITL950MCA $3530.00
With Medeco™/Carbide Cutter

ITL 9700M Code Machine

The industrial 9700 code machine is a superb asset for any high production lock shop. The 9700 performs all the tasks you've come to expect from ITL machines, but is built with industrial quality bearings, rods, and screw drives for unprecedented durability and speed. In addition, the cutterhead actually swings under its own power to cut Medeco™ high security keys with ease.

ITL 9700 M Code Machine
#ITL9700M $6295.00
With Medeco™ Cutter

HPC Blitz™



From its introduction almost 30 years ago as the 1200CM, the Blitz™ Machine revolutionized the locksmith industry. The 1200CMB simplified the code cutting process by translating the lock manufactures' depth and space measurements to code cards. Simply insert the code card for the lock you are working on, set the space needle to the number 1 mark on the card, and set the depth needle to the appropriate depth number for the cut required. Next, move the space needle to the second space and move the depth needle to the appropriate number for this cut. Continue this simple procedure to cut a new key, to the manufacturer's exact specifications, in less than one minute. Quite often just replacing the code card is all that is required when you cut a key for a different lock.

The machine is supplied with an expanded deck of 150 code cards, including many of the cards for the latest cars. Additional specialty code cards and adapters are available separately.

Optional adapters are available to cut Tubular and Tibbe keys as well.

HPC Blitz™ Code Milling Key Machine
#HPC-1200CMB $2425.00

Specifications
Motor: 120VAC*
Weight: 16lbs.
Machine Size: 12"W x 14"D x 9"H
Bench Size: 20"W x 14"D
* Available in other voltages

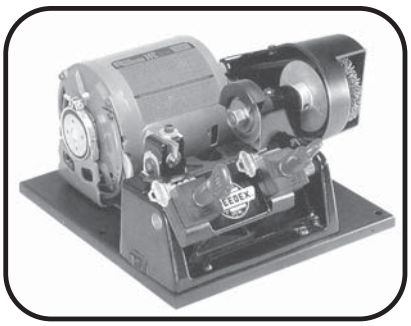
HPC Premier Speedex®



The Premier Speedex® is a manual duplicator, perfect for duplicating even the largest keys, such as hotel/motel room keys. It is equipped with 4-way jaws for holding a variety of different key blanks, including double-sided keys (such as foreign automotive keys). The reversible copy dog allows you to cut flat steel keys with the optional slotting cutter kit. The simplicity of operating this machine makes easy work out of duplicating even a large number of keys. The Premier Speedex comes mounted on a sturdy base and comes equipped with a heavy-duty motor, and an HPC Softie™ de-burring brush.

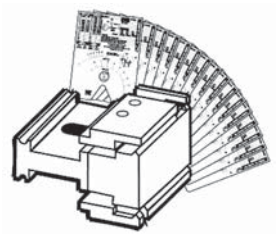
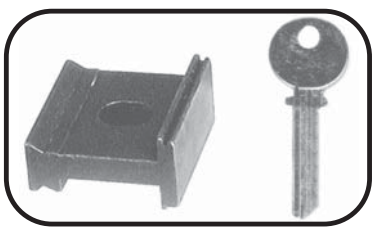
HPC Automotive Jaw Kit



The HPC Super Jaw Kit fits your Blitz™ and helps cut double-sided automotive keys without shims and wires that are easily lost or misplaced. This kit comes with everything you need including 20 code cards designed specifically for this jaw to keep you up-to-date.

HPC Automotive Super Jaw Kit
#HPC-ASJ-1200 $159.35

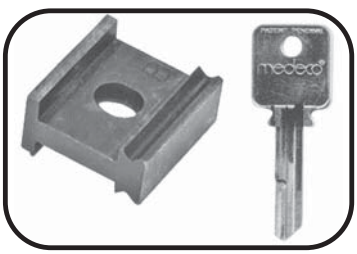
HPC Medeco® Jaw



With this Medeco® Jaw you can cut Medeco® level 1 Commercial keys. This jaw can be used with the 1200 CMB Blitz™ and CodeMax® Series Code machines.

HPC Medeco® Jaw
#HPC-MJ-1 $68.02

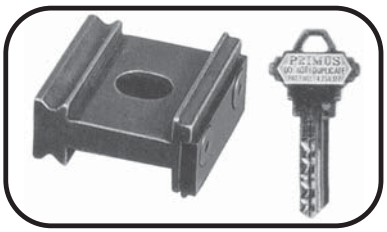
HPC Medeco® 3 Freedom Jaws



This kit can be used to cut Medeco® 3 Freedom keys on your Blitz™, Switch Blitz™ and CodeMax® code machines.

HPC Medeco® 3 Freedom Jaws
#HPC-MJ-3 $84.95

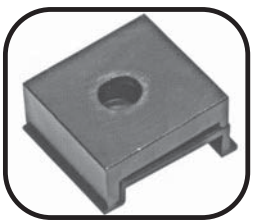
HPC Schlage Primus®/Quad Jaws



This kit can be used to cut Schlage high security Primus® keys and Quad series keys, as well as standard Schlage keys on your Blitz™ and CodeMax® code machines.

HPC Schlage Primus®/Quad Jaws
#HPC-SPJ-1 $50.85

HPC Medeco® KeyMark Jaws



This kit can be used to cut Medeco® KeyMark keys on your Blitz™ or Switch Blitz™ code machines.

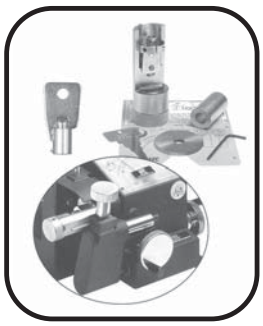
HPC Medeco® KeyMark Jaws
#HPC-MKYM-KIT $109.75

HPC Tibbe Key Adapter Kit

Cut both 6-space and 8-space Tibbe keys on your Blitz™ code machine. These specialty keys are used on Ford and Jaguar cars. Fast, easy, accurate, and economical, this adapter will be a valuable addition to your cutting equipment. This kit comes with everything you need to cut these high profit keys, including the adapter, slotter-cutter, and code card. Tibbe Key adapters are also available for the Switch Blitz™ and Blue Shark™ key machines.

HPC Tibbe Key Adapter Kit
#HPC-TIBBE-CMB (Blitz™) $259.00

HPC Tubular Key Adapter Kit



Turn your Blitz™ code machine into a tubular code machine. It is factory preset to cut standard 7-pin tubular keys (.365 O.D.) by code. The Tubular Key Adapter fits in the standard jaw making conversion quick and easy. This kit comes with an adapter, Carbide Slotter-Cutter, Code Card, and Allen wrench. Tubular Key Adapter kits are available for the Switch Blitz™ and Blue Shark™ key machines as well.

HPC Tubular Key Adapter Kit
#HPC-TKA-CMB (Blitz™) $265.00

Blitz™ Calibration Kit

This easy to use tool kit is for use with all 1200CMB Blitz™ and Switch Blitz™ code machines. It is designed to quickly and accurately diagnose whether your machine is out of calibration. If calibration is necessary, the kit can then be used to calibrate your machine or determine if factory service is required.

HPC Blitz™ Series Calibration Kit
#HPC-CMB-CK $65.50

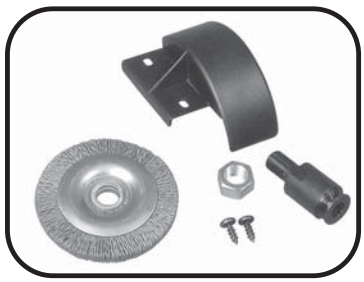
HPC Softie™ Brush & Assembly



The Softie™ brush eliminates flying wire strands and brush flaring. It is made of Tylon-X. The carbide impregnated brush de-burrs faster, smoother, and lasts six times longer than wire.
The Softie Brush Assembly includes the Softie™ brush with shield, two screws, a nut, and pulley. It can be used on 1200CM Blitz™, Switch Blitz™, Code Max®, and Trace-A-Key machines.
HPC Softie Brush Only/Replacement

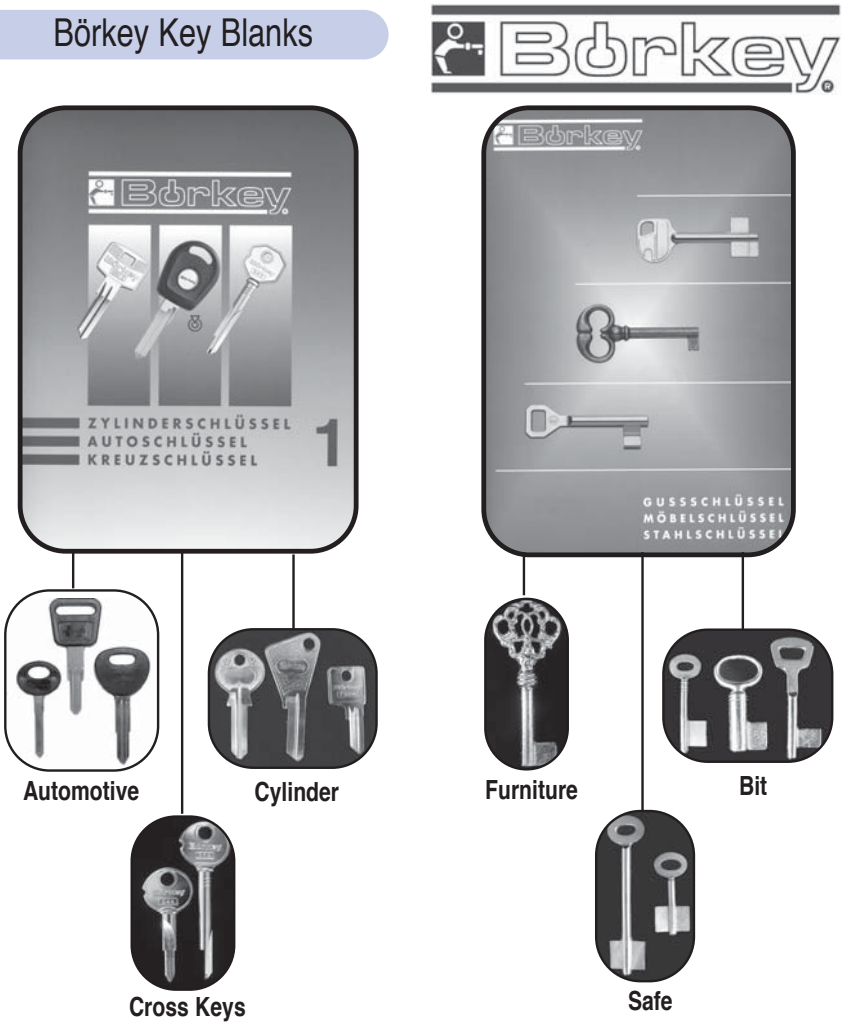
KEY BLANKS/FURNITURE LOCKS

Börkey Key Blanks



Now that MBA is the sole distributor of Börkey in the United States, we also carry the steel key blanks that Börkey is famous for. There are two key blank catalogs which may be purchased from MBA. Both are great for reference, and with scale drawings for all the blanks Börkey offers, including profiles of bits, these catalogs belong in every key shop. Call MBA for anything Börkey!

Cylinder & Automotive Keys
#BOR-CAT1 $10.00

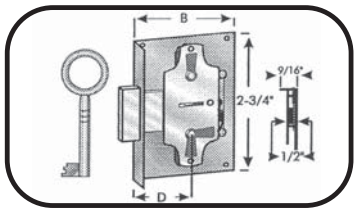
Bit & Furniture Keys
#BOR-CAT2 $10.00

BUY BOTH FOR $15.00!
#BOR-CAT3

AVAILABLE NOW ON CD!

Now on CD, the Börkey Key Blank Catalog. This catalog features scale drawings of furniture, bit, and safe key blanks (perfect for the Eurocompact 200). An excellent reference.
Börkey Key Blank CD
#BOR-CAT2/CD $5.00

Economy Deadlock



The price is right for this all-purpose deadlock. Designed for right- and left-hand doors, drawers, and top-locking doors. Iron backplate - Nickel plated key. Three-lever lock with six different combinations. Available in (3) popular backsets.
See chart for part numbers, dimensions and prices.

Roll-Top Desk Lock

This is the perfect replacement for most roll-top desk locks - center keyhole is original style. No modifications are normally required. Brass plated faceplate with two-wing automatic locking mechanism. One double-bitted brass plated key with each lock - all keyed alike. Spring loaded brass plated strike plate included and measures 1"x3-1/8" (25mmx80mm).
See chart for part numbers, dimensions and prices.

Dainty Chest Lock

Common use for pianos and "fold-over" chest type applications. Can also be used to latch sliding doors - for doors specify RH or LH. Iron case is very thin a mere

Dainty Chest Lock Cont.

5/16". Nickel plated key - six different combinations. Brass plated faceplate is 1/2"x2-15/16". Brass plated strike included is 1/2"x2-3/16". Case thickeness is 5/16"-8.5mm

See chart for part numbers, dimensions and prices.

Auto-Latching Hookbolt

Spring-loaded latching mechanism. May be used for sliding doors or chest lids. For doors specify RH or LH. Iron case, Nickel plated key. Three-lever lock - (6) different key combinations. Brass plated faceplate is barely 9/16"x3-9/16" (14mmx90mm) Brass strike plate included is 5/8"x3-1/8" (17mmx80mm) Case thickness is 5/16"-9mm. Locating pin prevents "jimmying".

See chart for part numbers, dimensions and prices.

Reversible Deadlock

Unique dual-purpose lock can be changed from RH to LH by reversing the snap-out plate that holds the lock post . Use for doors and drawers - one lock does it all! Nickel plated key - locks are all keyed alike. Brass plated faceplate is barely 1/2" wide (12mm) and is 2-15/16" high (75mm). Case thickness is 3/8" - 9.5mm. With four backsets in your stock, you'll have instant solutions for many locking problems.

See chart for part numbers, dimensions and prices.

Economy Deadlock 2

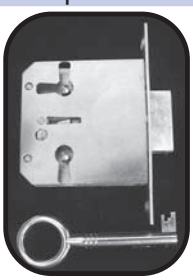
Full mortise lock with narrow iron case. For doors specify RH or LH. Brass plated decorative key - locks all keyed alike. Rounded brass plated faceplate, measuring approx. 3/8"x2-3/4" (12x70mm), is narrow enough to fit thinner doors and drawers. Case thickness 3/8"-9.5mm.

See chart for part numbers, dimensions and prices.

Multi-Purpose Deadlock



One of our most popular mortise locks. Use this lock for right and left hand doors and for drawers - it really is multi-purpose! Iron lock case - Nickel plated key. Three lever lock offers (6) different key combinations. Brass faceplate is barely 1/2" wide (12mm) and measures 3-3/8" (85mm) high. Case thickness 3/8"-9.5mm.

See chart for part numbers, dimensions and prices.

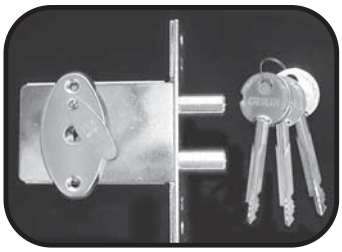
AUXILIARY LOCKS

Mortise Lock



This unique mortise lock is for installations in ultra-thin doors - as thin as 1-1/4". Key access from inside and outside. Three pin chambers for extra protection. Picking this lock is nearly impossible. Two bolts feature self-marking pins for accurate installation. Twin bolts extend 13/16". Comes with (2) escutcheons, strike, and mounting hardware. Key blanks are available.

Mortise Lock

#ZSS-ML211 $107.00

Escutcheons - See Hook Bolt Below

Hook Bolt

A one-of-a-kind problem solver. It is perfect for pocket doors that require access and locking capabilities from either side. This lock can be mortised into sliding doors, cabinets, boat hatches, and may be used for many other problem installations. Positive deadbolt action of the hook-bolt gives extra security. This lock features a locating pin to guard against "jimmying". Comes with a strike and mounting hardware - no escutcheon. Key blanks are available.

Hook Bolt

#ZSS-MO360 $101.00

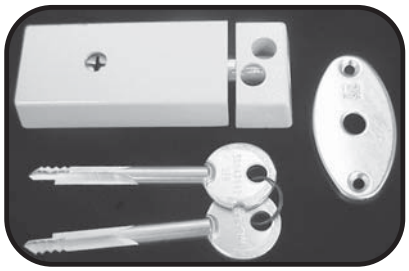
Matte Silver Oval Escutcheons

#ZSS-PR2 $5.00

Matte Silver Strike Plate

#ZSS-MO360SP $5.50

Surface Mount Lock



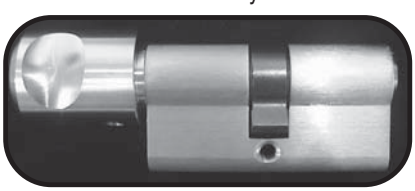
This lock is designed to be rim-mounted on sliding doors, problem windows, recreational vehicles, and hard-to-solve security installation needs. Key will work from either side of the lock. No protruding cylinder to be attacked from outside. Three pin chambers enhance security, making picking very difficult. Once installed and locked, the lock case is removable only when the key is available. Comes with (1) escutcheon, strike, spacers and mounting hardware. Key blanks are available.

Surface Mount Lock

#ZSS-SS143 $121.00

Euro Profile Cylinders

Double Profile Cylinder



Profile Cylinder w/Thumb Turn

These cylinders are used in many imported door locks. Approximately 60mm long, they are a good universal replacement.

Double Profile Cylinder

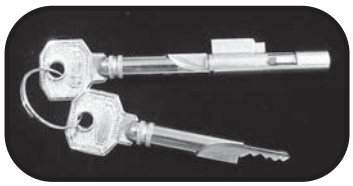
#ZSS-CO31 $129.14

Profile Cylinder with Thumb Turn

#ZSS-CO34 $136.95

We reserve the right to change prices at any time and without notice. We are always happy to quote you current prices at the time you order any product.

Showcase Locks



Available for cabinets with either glass or wood sliding doors. Removable European-Style lock-block allows for attractive and secure installation. Glass style mounts through single 5/8" hole drilled in one glass plate and is secured with two screws from inside the plate. Wood Style mounts through 5/8" hole drilled in sliding panel and is secured with three screws from inside the panel. Replacement plugs are available separately. Plugs can be ordered KA or KD. Blanks cannot be cut without a gripping device, which is available if you are going to duplicate a quantity of keys (see below).

Housing for Glass

#BUR-GH $8.00

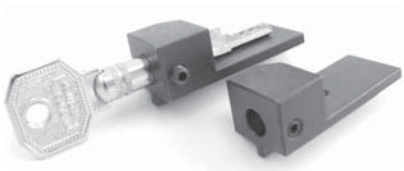
Lock Plug with (2) Cut keys for Wood or Glass (available KA or KD)

#BUR-SEP1 $19.00

Uncut Key Blanks

#BUR-SEB1 $4.00

Adapter for Radius Keys



This adapter mounts in the jaws of your semi-automatic key machine and firmly grips radius keys (as the BUR-SEB1 above) when cutting. Comes in (2) sizes.

Adapter for SEB-1&2 Blanks

#BOX-GR/R7 $150.00

Adapter for SEB-3&4 Blanks

#BOX-GR/R6 $200.00

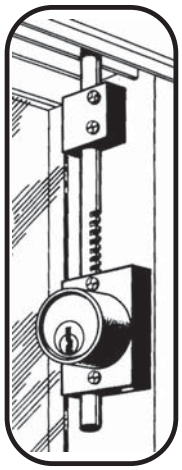
Octopod™



The versatile surface mounted deadbolt. Ideal for sliding patio doors, sliding windows, swinging doors, double doors, and french doors. Lock housing will accept a standard 1-1/8" mortise cylinder (not included) enabling it to be keyed to other locks in a system. Can be used on narrow stile doors and frames with a frame width of only 1-5/8". Mounts at the top or bottom of door or both. Each lock is supplied with a #1 gear (for use with standard mortise cylinders), locking rod, one way screws and instructions. Special #2 gear for use with Medeco cylinders or #3 gear for use with ASSA V-10 cylinders also available.

Octopod™ - 9"Rod
#MS-5002-1-9 plus Finish Code below

A - Aluminum Powder Coat	$28.25
B - Polished Brass	$55.75
C - Polished Chrome	$55.75
D - Duranodic Powdercoat	$28.25
W - White Powdercoat	$28.25

Call MBA for pricing and more information on other gears available for the model above. There are also Single Point with One Locking Rod and Double Point with Two Locking Rods, all in assorted finishes and rod lengths. Call for dimensions and details. We can also provide parts for the Octopod™.

LA GARD

LOCK REDESIGN FROM LA GARD

La Gard has redesigned their swing bolt and dead bolt lock designs to meet or exceed VdS requirements. The solenoid locking mechanism in both have been replaced with a motor. When the bolt is extended, the motor rotates a blocking element into the path of the bolt's movement preventing the bolt from being retracted. When a valid combination is entered, the motor rotates the blocking element out of the path of the bolt's movement, allowing for bolt retraction by either the dial or the container's boltworks.

No dimensional or operational changes have been made. However you will notice improved battery sensing and extended battery life.

Models affected by this change include the Basic, Combogard Pro and Audit gard.

La Gard ComboGard Pro 39E

Operated by a (9V battery, this U.L. Type 1 is programmable from the keypad or from a PC. The following options are available:

- Manager and Nine Users
- Time Delay 1-99 Minutes
- Open Period 1-19 Minutes
- Time Delay Override
- Dual Code Mode
- Silent Signal Alarm
- Remote Override Signal
- Audit Trail Available
- Programable from PC available (Software sold separately)

Choose from Deadbolt, Springbolt or Swingbolt locks and select a keypad that has the features you need.

La Gard LGBasic II

The La Gard LGBasic II has been re-designed to make installation easier and more flexible. The need for the adapter plate has been eliminated so fewer parts are required. The LGBasic II is a simple swingbolt lock that has many features: wrong try penalty; two combinations, manager plus one user who can be disabled or removed as necessary; and a low battery warning. The LGBasic II will not lose its code if the battery is disconnected or suffers a power loss. This is a U.L.Type 1 lock that requires (1) 9V battery, which is accessible from a compartment under the keypad. The Basic is now a motor driven lock - see page 20 about the design change.

S&G 2937

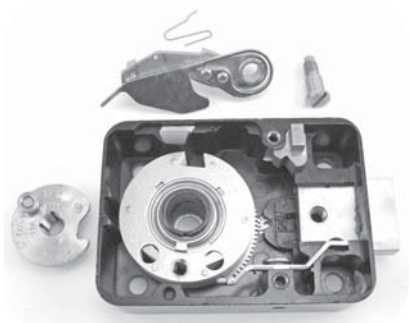
MEETS U. S. FEDERAL SPECIFICATION FF-L-2937

The S&G® 2937 lock represents the latest design advances to produce a mechanical lock to secure certain types of GSA approved containers, such as field safes, armory vault doors, weapons containers and similar items.

FEATURES

- Three all-metal wheel construction.
- Familiar left-right-left dialing sequence, and one-handed operation convenience.
- Built in thermal protection provided by an integral thermal relock component.
- Certifications:
UL® Group 1, Fed Spec FF-L-2937
- Key changeable wheel design for simple combination changing.
- Stainless steel lock bolt is strong enough to resist more than 600 pounds of force.
- Incorporates S&G's patented, time-tested torque adjuster to allow precise setting and maintenance of wheel pack torque.
- The lock case uses S&G's "Magic Module" footprint for ease of retrofit on existing containers.
- Designed to the highest US Government Standards for Mechanical Combination Locks.

S&G® 2937 Mechanical Safe Lock
#SG2937-200 $265.00
Complete Lock, Dial and Ring Package



S&G 2740

Meets U. S. Federal Specification FF-L-2740A

The S&G® 2740 lock is engineered and manufactured to meet the highest security standards of the US Government for the protection of classified materials.

Features:

- Advanced electromechanical design yet with the familiar left-right-left dialing sequence and one handed operation for convenience.
- The lock case uses S&G's "Magic Module™" footprint and .461 inch bolt throw for ease of retrofit on existing containers.
- Simplified installation process significantly decreases installation time and reduces the likelihood of errors and damage to parts.
- Change key for quick, easy combination changing is included with each lock.
- Spy-Proof® Dial is standard with the Model 2740.
- Alignment, operating mode selection, and diagnostics are performed with the aid of a plug-in setup module. This simple tool incorporates an easy-to-read graphic interface that facilitates lock installation, setting the operating mode, and performing normal service operations.

SAFE LOCKS

S&G Z02-D Drive

S&G's new UL Type 1 electronic lock has many features which make it an outstanding choice:

- Lock bolt retraction and extension controlled by turning the keypad ring.
- No-twist cable design that eliminates cable damage due to keypad rotation.
- Open/Close indicator that tells at a glance if the safe is locked or unlocked.
- Program the lock from the keypad, no programmer required.
- The lock cable is protected by a channel in the spindle which prevents crimping and eases installation.

These are just some of the features - call MBA for more information and to order.

#ELS20XL-S Slam Bolt w/Black Keypad $156.00

ESL10XL FEATURES

- Replaces most mechanical combination locks. Easy installation and operation.
- Combination changes are fast and easy from the keypad.
- Two 9V-DC batteries in the keypad housing are easy to change.
- Electronics are encapsulated within the lock and are sealed to prevent possible moisture related failures.
- Cable fits through a 1/2" spindle hole without cutting and re-crimping connector.
- Audible beep and flash from every keystroke gives maximum feedback to the user.
- New industrial "Soft Touch" membrane keypad is tough yet requires very low activation pressure.
- 15 minute Penalty Lockout after four incorrect entries protects against manipulation attempts.
- New patented dead-latched lock design with internal relock device for maximum security.
- Lock "auto-locks" when boltwork is thrown to prevent safes from being left in a day lock position.

ESL20XL FEATURES

- Time Delay Mode: Can be set from 1 to 99 minutes. Open period can be set from 1 to 9 minutes.
- Multiple User Mode: (1) master code and (8) user codes are available.
- Dual Control Mode: Lock requires two combinations to open for added security.
- Armored Car Override: Allows armored car service to bypass Time Delay.
- External A/C Power: Provided power for unlimited use with battery power are back-up.
- Control Port: Turn the ESL20XL on/off with Access Manager, Alarm sysytem or

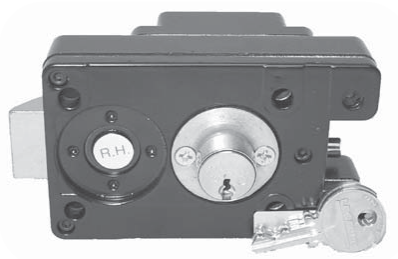
Time Delay Safe Locks



CS401 w/ Key Cylinder

CS401 w/ Knob

Legault (pronounced "lay-go") delay action time locks from Canada are used on a wide variety of security containers. Their primary function is the prevention of robbery. Containers equipped with Legault locks cannot be opened without waiting for a pre-determined delay period to elapse.

Time Delay Safe Locks

The locks are dependable, affordable and easy to work with. Choose from key-activated or knob-activated, and from mechanical (CS401) and electronic (EM-1) time delay. Switch models are used in conjunction with optional "function indicators" to monitor opening window, delay period, or both. Call the experts at MBA USA to help you with your selection.

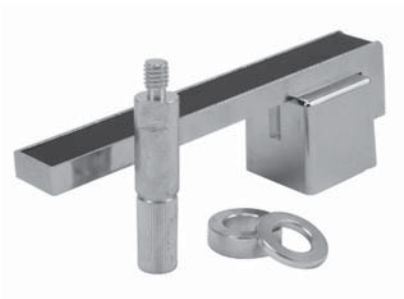
33	SLS/SMP 3-Gauge Single Bitted Key Blank 150mm	TS-SMPK3SB-150	$10.00
34	SLS/SMP Screw-In Key Stem For Single Bitted Slip Bit 140mm	TS-SLSSKS	$67.50
35	SMP Single Bitted Mild Steel Slip Bit For Screw-In Key Stem	TS-SMPSKB	$8.00
36	SLS/SMP Screw-In Key Stem For Single Bitted Slip Bit 275mm	TS-SLSSKS-275	$84.00
37	Same as 36	TS-SLSSKS-275	$84.00
38	SLS Single Bitted Mild Steel Slip Bit For Screw-In Key Stem	TS-SLSSKB	$7.00
39	Tann Screw-In Key Stem w/Collar For Single Bitted Slip Bit 250 mm	TS-TSKS-245	$86.50
40	Tann Screw-In Key Stem w/Collar For Single Bitted Slip Bit 185 mm	TS-TSKS-185	$72.50
41	Tann Single Bitted Mild Steel Bit For Screw-In Key Stem w/Collar	TS-TSKB	$7.00
42	Tann Hooked Key Stem For Single Bitted Plunger Bit	TS-TPKS	$53.00
43	Tann Single Bitted Plunger Bit For Hooked Stem	TS-TPKB	$95.00
44	Rosengrens Screw-In-Bow Key Stem for RKL Lock 160mm	TS-RRKLKS	$69.50
45	Rosengrens Screw-In-Bow Key Stem for ABN V-Shaped Screw-In Key Bit 195mm	TS-RABNKS	$63.00
46	Rosengrens V-Shaped Screw-In Key Bit For ABN Screw-In Bow Key Stem	TS-RABNKB	$60.00
47	Lowe & Fletcher Double Bitted 8-Lever Piped Key Blank 45mm (90mm overall length)	TS-LFK8LDB-45	$24.00
48	Lowe & Fletcher Double Bitted 8-Lever Piped Key Blank 75mm (120mm overall length)	TS-LFK8LDB-75	$25.00
49	Chatwood Milner Key Stem w/Collar For Double Bitted Bit 175mm	TS-CMSKS	$102.00
50	Chatwood Milner Double Bitted Mild Steel Bit For Key Stem w/Collar	TS-CMSKB	$53.00
51	Chatwood Milner 5.5 Gauge Double Bitted Blank 70mm	TS-SMK55DB-70	$28.00
52	Cawi Detachable Steel Key Stem For 9,11,14 Lever Locks 280mm	TS-8250-280	$66.85
53	Cawi Detachable Single Bitted Nickel Silver Key Bit For 1839 Lock	TS-8251-SB	$83.50
54	Cawi Detachable Steel Key Stem For 9,11,14 Lever Locks 230mm	TS-8250-230	$50.25
55	Cawi Detachable Steel Key Stem For 9,11,14 Lever Locks 180mm	TS-8250-180	$45.25
56	Cawi Detachable Double Bitted Nickel Silver Key Bit For 9,11,14 Lever Locks	TS-8251	$68.00
57	Cawi Steel/Nickel Double Bitted Key Bit For 9,11,14 Lever Locks 180mm	TS-8237-180	$70.00
58	Cawi Nickel Silver Double Bitted Key Blank For 9,11,14 Lever Locks 150mm	TS-8237-150	$49.50
59	Cawi Steel/Nickel Silver Single Bitted Key Blank For 1839 Lock 180mm	TS-8237-180SB	$80.00
60	Cawi Nickel Silver Single Bitted Key Blank For 1839 Lock 150mm	TS-8237-150SB	$65.50
61	Cawi Nickel Silver Double Bitted Key Blank For 9, 11, 14 Lever Locks 95mm	TS-8221-95	$38.50
62	Cawi Nickel Silver Single Bitted Key Blank For 1839 Lock 95mm	TS-8240-95	$56.75
63	Cawi Steel Double Bitted Key Blank For 9-Lever Lock 72mm	TS-8211-72	$23.50
64	Cawi Steel Double Bitted Key Blank For 9-Lever Lock 95mm	TS-8210-94	$24.00
65	Cawi Die Cast Double Bitted Key Blank For 8-Lever Lock 53mm	TS-8230-53	$9.00
66	Cawi Die Cast Double Bitted Key Blank For 8-Lever Lock 65mm	TS-8231-65	$10.00
67	Cawi Die Cast Double Bitted Key Blank For 8-Lever Lock 95mm	TS-8232-95	$12.00
68	Cawi Die Cast Double Bitted Key Blank For 8-Lever Lock 120mm	TS-8247-120	$12.00
69	Cawi Die Cast Double Bitted Key Blank For 8-Lever Lock 145mm	TS-8248-145	$13.50
70	Cawi Die Cast Double Bitted Key Blank For 8-Lever Lock 160mm	TS-8249-160	$13.50
71	Single Bitted Mild Steel Key Blank 90mm	TS-CT12-90	$8.50
72	Powerlock Double Bitted Mild Steel Key Blank 130mm	TS-PLKDB	$19.25
73	Stuv Double Bitted Key Blank 120mm	TS-STUV-120	$18.50
74	Single Bitted Mild Steel Key Blank 75mm	TS-S2-75	$10.00
75	Single Bitted Mild Steel Key Blank 40mm	TS-CT12-40	$7.00

SAFE PARTS

S&G Two Piece Handle

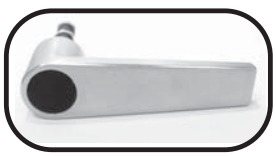


This handle is a direct replacement for the discontinued two piece S&G safe handle. Includes the arbor for installation and the L-shaped trim with adhesive

S&G Two Piece Safe Handle (Satin)

BSH003 $16.00

La Gard Safe Handles



La Gard safe handles - two finishes, comes with or without 7/16" diameter stem.

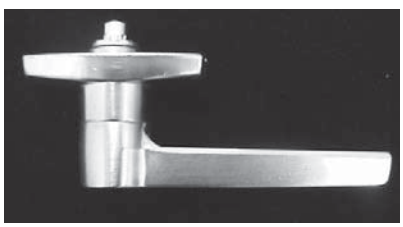
Handle Assembly W/Stem (Satin)

LG2300 $19.50

Handle Assembly w/o Stem (Satin)

LG2301 $11.25

GSA Safe Handle



Replacement handle for Mosler GSA containers Class 3 and 6 Black Label.

GSA Handle

#MSN73402000A $38.15

Generic Safe Handles

Replacement handles adapt to most containers. Available with 1/2" or 5/8" diameter arbor holes and a satin chrome finish. A 3/8" set screws hold the handle securely in place.

Safe Handle - Satin Chrome 1/2" Arbor Diameter

#BSH001-1/2-26D $16.00

Safe Handle - Satin Chrome 5/8" Arbor Diameter

BSH001-5/8-26D $16.00

S&G Change Key with Handle

The standard S&G change key (U8) is the most versatile change key today. It works on the three wheel 6700 Series, 8400 Series, 8500 Series, plus the new 2937 lock. We take factory change keys and add a custom designed handle to them. The result is a key that is a pleasure to use and will fit on a key chain as well.

S&G U8 Change Key w/Handle

#MB75 $9.95

GSA Labels

NOT AUTHORIZED
FOR STORAGE OF
CLASSIFIED
INFORMATION

MBA is authorized to train inspectors of GSA containers. When a container does not pass inspection, a label stating that it cannot be used to store classified material is required. These can be purchased from MBA in a package of (6).

Rejection Labels
#RLP02 $4.50/For 6

Lock Stands

NEW

MADE IN U.S.A.!

Better than Blue! Our new Gray safe lock stand is 100% made in the USA - right here in Kentucky no less. Our stand has all the mounting holes (including the 4 dial ring ring holes) tapped to standard threads. Our mounts are the only ones that allow you to mount a wide variety of key-operated safe locks (STUV, Mauer, and CAWI for example), in addtion to standard footprint safe locks. The gray color looks terrific too!

Lock Stand - Gray
#MB15-A $12.95 ea.
Quantity Discounts available

GSA Safe Magnets

These magnet signs are for your customers with GSA containers. One side is "Open" and the other is "Closed", indicating container status and are used per regulation AR380-5, Section 6-10c.

GSA Open/Closed Magnets
#MB57 $6.00 ea.

Want to be certified as a GSA container inspector?
MBA can train you!
See pages 75-79, call us for a training brochure or visit our web site for information.

SAFE TOOLS

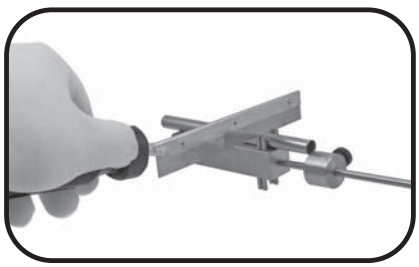
X08/X09 Defeat Tool

This tool is used to retract the bolt on X-08 and X-09 Kaba-Mas high security combination locks after drilling for the slide area. The first tool is for the X-08 to retract the bolt by simply turning the tool. The same tool works on the X-09 to retract the bolt partially until the "hooks" engage preventing full retraction of the lock bolt. The 2nd tool is used to precisely drill into the lock bolt and insert a rod to use the tools cam action to easily break the hooks and retract the bolt completely. This tool eliminates the frustration of attempting to retract the bolt using wires or ice picks.

X08/X09 Defeat Tool

#LD38 $149.95

X08/X09 Cutoff Tool



This is a handy new tool designed to ease the difficulties of mounting X-08 and X-09 locks on GSA Security containers. Measuring and accurately cutting the tubes for these locks is essential to their proper operation. This carefully thought-out cutoff tool makes that job much easier and gives very accurate results.

In addition to this tool, you will need a tube saw (supplied with every new lock) and a standard hack saw. Comes with complete instructions.

X08/X09 Cutoff Tool

#JC12 $89.95

Direct Entry Manipulation

The kit and book for "straight tailpiece" safe manipulation tool. The book details the inner workings of a wide variety of both antique and modern locks that have direct drive, including Alpine, Amsec, Hall, Lord and Major, then provides the step by step direct entry manipulation procedure. When the manual is used in conjunction with the manipulation aid, opening these safes is a snap. The kit includes the manual, magnetic manipulation scale, 2 piece brass clamp, brass pointers, a variety of "S" hooks, thumbscrews, and rubber bands for attaching the tools to the safe handle or handle arbor.

Manipulation Kit

#JC08 $99.00

Ed Willis T-Shirt

2011 Limited Edition

This year the MBA USA Ed Willis T-shirt features the Chubb Isolator, drawn with the usual precision and detail that made Ed famous. By popular demand, this year our shirt is black with a blue imprint and we have added some new sizes.

Ed Willis T-Shirt 2011 Edition

#WT11-Size (S,M,L,XL,XXL,XXXL) $11.95

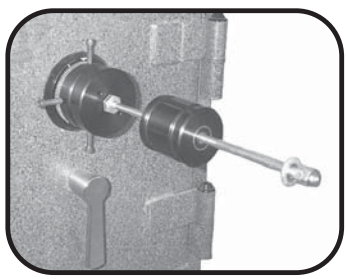
AeroShell Grease

Corrosion inhibited and fortified against oxidation, AS22 has excellent anti-wear properties, plus a wide useful temperature range. Although AS22 is formulated as a lubricant for aircraft, it has shown to be an excellent lubricant for mechanical combination locks as well. We have AS22 packaged in easy to use .5 ounce containers sold in packs of 6.

AeroShell Grease - 3 oz. (Six .5 oz. containers)

#AS22 $11.25

Dial Puller



Just when you think a tool has gotten as good as it can be, StrongArm comes along and makes it even better! Pulls common safe dials, such as standard S&G, PLUS dials with tapered spindles, such as La Gard, PLUS X-07/08/09 dials! If you are still using an old-fashioned puller, it's time to upgrade with the latest puller from StrongArm.

Improved Dial Puller

#SA03-K $107.00

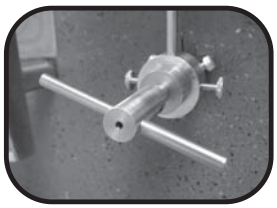
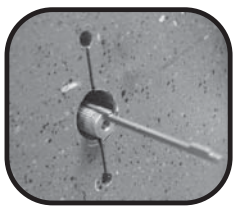
SEMS (Spindle Extraction Manipulation System) Kit

Drilling the spindle

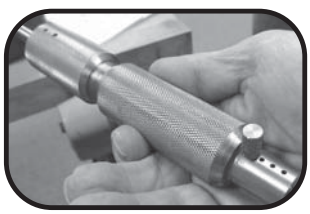


Tapping the spindle



Inserting the spline pusher

Pushing the spline



Extracting the spindle

Inserting the clip

SEMS is another innovative tool from John Falle. SEMS is an acronym for "Spindle Extraction Manipulation System". This ingenious tool allows the user to remove the spindle from the most common mechanical safe locks and decode the combination through the now empty spindle hole.

Precision engineering plus the use of specially formed "memory metal" clips makes decoding very easy. SEMS allows you to open most S&G 3 and 4 wheel locks without ever putting a hole in the safe! This includes the Group 1 8500 manipulation resistant lock used on many GSA containers.

When you encounter safes with glass relocking devices and nasty hardplate, SEMS can save you considerable time and effort. Another great tool from John Falle, available exclusively from MBA USA, Inc.

SEMS Kit*

#FS105 $6,995.00

***Contents of kits subject to change without notice. See page 73, Catalog Contents for details.**

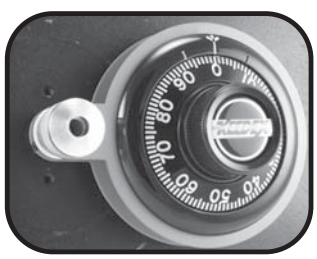
EXCLUSIVELY FROM MBA!

Emergency Transfer Dial

This new emergency dial from Keedex should be in every safe technician's tool kit. It is very well made with an easy to read large dial. It attaches securely to the safe using rare earth magnets. The tool features precise one to one ratio between dial and spindle and can easily transfer the gates to any position fast and accurately. Using this new transfer dial allows easy viewing through your drilled hole, while giving you total control of the wheels. Even if you already have an emergency transfer dial, you will want THIS one.

Emergency Transfer Dial

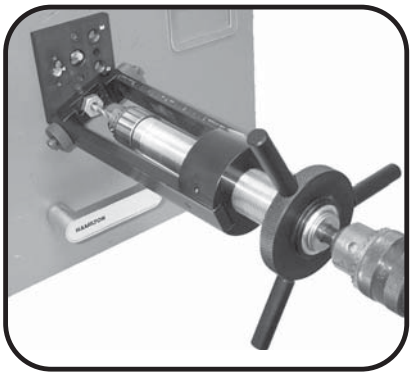
#K-ETD $145.00



WE ACCEPT

SAFE TOOLS

Mini-Rig Pro Kit



The revolutionary design of this kit makes it the smallest, lightest safe drilling rig available. The Mini-Rig can adapt to any electric drill motor and is designed for fast and easy set-up. Two mounting plates - one for attaching the Mini-Rig directly to the safe and one for attaching the rig to either of two special drill point templates - are included. Also in the kit:

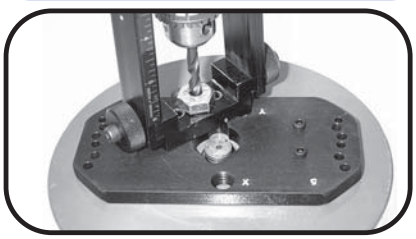
- Drill Template #1 for S&G 6730, 8400 &8500; LaGard 1800, 1980, & 3330; Diebold 900, 177 & 180
- Drill Template #2 for Mosler 120 & 302
- Dial puller (See page 39)
- Chuck key
- Tap
- Extension Handles
- Laminated template drilling location guide
- Carrying Case
- Instructions, plus tips for drilling hardplate

Mini-Rig Pro-Kit*

#SA03 $875.00

***Contents of kits subject to change. See page 73, Catalog Contents for details.**

Floor Safe Template

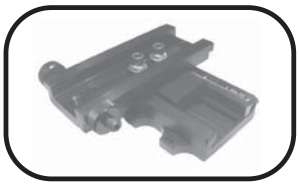


This template works on Star, Gary C&E Rate, and Major floor safes. You can drill the drop in point on any of these common floor safes. Add this template to your Mini-Rig Kit.

Floor Safe Template

#SA03-D3 $86.25

Uni-Template

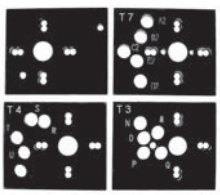


The Universal Template, or Uni-Temp, is the newest drilling template for the Mini-Rig from StrongArm. This template is attached to a safe's dial ring mounting screw holes, but it can be mounted anywhere on the safe. You can determine right, left, up and down dimensions from the spindle hole using the Uni-Temp X-Y axis, built-in scales, and index. Your Mini-Rig can be removed from the Uni-Temp during the drilling process to change bits, then pops easily back in place to continue your work.

Uni-Template

#SA03-D10 $225.00

Electronic Drill Templates



There are two optional electronic lock drill templates available to use with the Mini-Rig. Template #3, for the LaGard 3600, 99E and 33E, includes drill points for the relocker, side bar for the 33E, the solenoid for the 3600, 33 and 99E.

The Kaba Mas Comprehensive Template has drill points for Auditcon, B52, Cencon, X-07, X-08, and X-09 all on one template.

The T7 multiple lock template has drill points for the Ilco 505, Amsec ESL 10/20, S&G 6120 plus optional drill points for La Gard 3330, Kaba Mas B52 and Mosler.

Use the blank template to make your own.

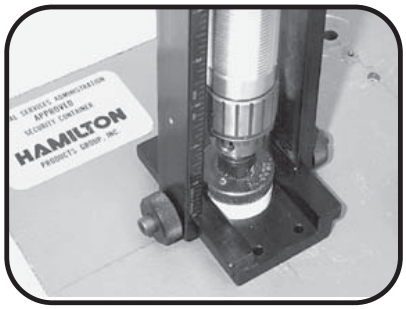
#SA03-D6 $40.25

GSA Neutralizers



Mini-Rig Bolt Saw Guide

MINI-RIG BOLT SAW GUIDE

Opening GSA containers is now easier and more economical! Designed to be used with your Mini-Rig, this bolt saw guide can be attached to a black or red label Class 6 GSA container. Use the special saws to get a clean safe opening with no damage to the expensive X-07/08/09. The bi-metal saws are for penetrating the container skin and the carbide saws will cut through the bolts. For one GSA container opening with your Mini-Rig you will need: (1) Mini-Rig Bolt Saw Guide, (1) Bi-Metal Hole Saw, (2) Carbide Tipped Hole Saws, (1) Hole Saw Arbor/Pilot Drill

Bolt Saw Guide

#SA03-E $101.25

Carbide Tipped Hole Saw

#SA03-F $30.00

Bi-Metal Hole Saw

#SA03-G $17.35

Arbor/Pilot Drill

#SA03-I $18.50

Hole Saws & Arbor Guide

"Super " StrongArm Drills

• **Strong Carbide:** Titanium tungsten carbide tips, diamond ground razor sharp with unique tip geometry.
• **Strong Brazing:** Ultra high temperature copper braze adds strength & reduces tip failure.
• **Strong Shank:** High grade, chrome-moly steel shanks, tempered and shot peened for extra durability.

PART #	SIZE	PRICE EA.

#SA01-M	1/2x24	$20.50
#SA01-Q	1/8x3.5	$5.75

Cobalt Drill Bits

For any safe technician, Cobalt bits for drilling mild steel are as important as those which can penetrate hardened steel (see above StrongArm Drill Bits). They can be resharpened many times so they are a good value. These bits will drill high alloy steels, titanium, stainless, and other hard-to-machine materials.

1/4"x4" Cobalt Drill Bits
#MC01 $5.40

Ball Buster Drill Bits

This new style drill bit allows you to drill Ball Bearing barriers cost effectively. The Ball Buster can be used for several openings. Comes with complete instructions and wooden plugs for stabilizing the ball bearings.

1/4"x5" Ball Buster Bit
#SA05-A $35.00
5/16"x5" Ball Buster Bit
#SA05-B $40.00

Diamond Drill Bits

Diamond Tip drill Bits are designed to cut carbide matrix hard plates in GSA containers. The tip is electroplated with diamonds. Aero Space lubricant provided with each drill washes away debris. After coring carbide matrix with the diamond bit, you can cut mild steel casing on Relsom and Maxalloy to remove the core with matching core cutter hole saws (not for cutting hardened steel).

1/4"X6" Diamond Bit
#SA02-A $25.00
5/16"x6" Diamond Bit
#SA02-B $30.00
3/8" Diamond Bit
#SA02-D $25.00
1/4" Core Cutter
#SA02-A1 $25.00
5/16" Core Cutter
#SA02-B1 $25.00
3/8" Core Cutter
#SA02-D1 $25.00

Thunder Drill Bits

StrongArm Drill Bits are considered the best bits available for drilling hardplate. StrongArm also offers a line of high speed bits for drilling mild steel. Perfect for penetrating lock cases and precision drilling of keylocks. The slight oversize of these bits helps remove the shavings and drills run cooler.

9/32"x4-1/4" Thunder Bit (use prior to 1/4" carbide or diamond bits)
#SATB-1 $5.75 ea.
11/32"x4-3/4" Thunder Bit (use prior to 5/16" carbide or diamond bits)
#SATB-2 $7.00 ea.

SAFE TOOLS

Solid Carbide End Mill Drills

The perfect solution for drilling X-0 locks! X-0 locks require perfectly placed holes in the lock case when drilling for lost combinations. Even trickier, the drill must not damage critical components located inside the case. These exceptionally hard and sharp solid carbide Mill-Drills are ideal for this job. Use your StrongArm Mini-Rig to penetrate without drilling too deep. The cutting ends of the mills are very slightly tapered - giving the perfect mix of cutting ability plus depth control.

Solid Carbide Mill-Drills

#SA-EM3	3/8x6"	$45.00
#SA-EM4	1/4x6"	$35.00
#SA-EM5	5/16x6"	$40.00

StrongArm "VacAttack"

Finally...a product that REALLY SUCKS!!! The VacAttack vacuum base drill press is specifically designed to make safe drilling as effortless as possible. The vacuum base is secured to the safe courtesy of a powerful air pump. Comes complete with drill press quill and handle, or mount your Mini-Rig to it for even greater versatility. Carrying case included.

VacAttack

#SAVAC-2 $2038.00

StrongArm MiniVac

The Mini Vac is an ideal tool for the technician on the go. It provides a quick attachment point for the Mini Rig, Bullet Rig or most any lever rig. Mini-Vac attaches to smooth or semi-smooth surfaces with just a few strokes of the thumb pump. An indicator is included to show you when additional pumping is required.

StrongArm Mini Vac

#SA-MV $349.00

Phil's Flywheel

This tool will dramatically increase your chances of manipulating any safe lock and is essential on some tough vault locks and 4 wheel locks. It will fit any spindle to 7/16" in diameter with a minimum length of 1/2" after removing the dial and ring. The tool features a precision smooth working roller bearing that becomes the dial spindle bearing surface for optimum contact readings. The oversize dial amplifies the dial changes and features 1/2 number increments in the contact area. The tool is designed to fit both Mosler and S&G/LaGard/Ilco standard ring bolt patterns.

Phil's "Flywheel"

#LD37 $295.00

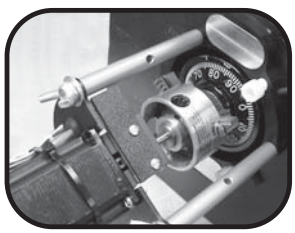
StrongArm's Steel Stick

StrongArm's Steel Stick is a great product for repairing drilled holes in mild steel. It is an epoxy-like resin that hardens like steel in about 20 minutes. Unlike similar products, Steel Stick contains real steel! Use by itself or with ball bearings or taper pins for an even stronger repair.

StrongArm's Steel Stick

#SA-STICK $8.95

Safe Dialer



Years of research and improvement on the original ITL safe dialer have resulted in a more reliable, easy-to-use, and economical device. Systematically dials thousands of combinations in an intelligent, orderly fashion for reliable openings.

- Super strong rare earth magnets
- Dial gripper with reversible jaws to grip most safe dials
- Easy to assemble
- Self-contained - NO computer required!
- Opens safes the SoftDrill™ can't!

ITL 2000 Safe Dialer

GSA First Strike Kit®

This kit* was specifically designed for the technician who services GSA security containers. It contains everything you need to open black or red label containers in one lightweight (about 30 lbs) package! Our kit supports both approved opening methods: sawing through the bolts or drilling into the lock box. The heart of this kit is the StrongArm Mini-Rig, the choice of top safe technicians for safe drilling. We even include a selection of StrongArm® carbide and diamond drill bits that have been proven effective on the toughest hardplate. Includes additional tools useful for GSA servicing and repair, the X-08/09 LOBC Drill Fixture (also sold separately as part number MB36), drill templates for the combination locks to be used with the Mini-Rig, a tube of StrongArm steel stick (part number SA-STICK), a 1/2" hammer drill and more. The kit also includes our CDX-07/08 installation jig to make those pesky door lock installations a breeze!

GSA First Strike Kit

#MB09-D $2495.00

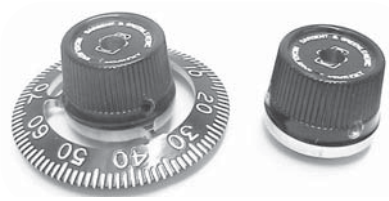
Emergency Dials



This dial could be a life saver. You never know when you will be faced with a service call where there is no dial or you simply don't know how to put the dial back on. There are several advantages to this particular dial:

1) It has three set screws which are angled to allow them to reach short spindles.

2) The cut outs in the dial are 7/8" from the dial center, allowing you to look "through" the dial into your drill hole.

3) It has a place to store the allen wrench (used to tighten the set screws) so it doesn't get lost.

4) The reasonable price. Add one to your service kit.

Emergency Dial (with number)

#MB01 $45.00

Emergency Dial (knob only)

#MB01-A $45.00

"EDGE" Audio Amplifier

Give yourself the professional edge when it comes to lock manipulation! Our new "Edge" amplifier has features not found on any other safe amp. We started by eliminating the external pickup found on other amps and replaced it with a high-sensitivity ceramic contact built right into the amp! A magnetic pad allows the amplifier to be placed directly on the safe for superior performance, while entirely eliminating the need for a microphone cable.

Next we added an automatic internal gain control that helps prevent constant adjustment or excessive headphone output levels. Finally, we incorporated a Record output which can be used with a spectrum analyzer for the ultimate "Edge" when developing techniques against 2M or higher locks.

The "Edge" can also be used as an aid when picking lever locks, the 2200 key-operated safe lock, or listening to time lock movements. Get the professional "Edge" today.

"EDGE" Manipulation Audio Amplifier

SAFE TOOLS

Joe's Card Trick

X-08 Drive Cam

X-09 Drive Cam

Joe Cortie showed us this neat trick with X-08 and X-09 drive cams. These two drives are virtually identical but they are not interchangeable! You must be able to tell them apart and we've made it easy with Joe's Card Trick. Just lay the viewing card over the drive cam and see the magnetic array inside. Just like having X-ray vision. Can be used over and over again.

Joe's Card Trick

#MB06 $8.49 ea. or (3) for $7.00 ea.

Wood Handle Ice Pick

It took some looking, but we finally located these nice wood-handle ice picks you've been asking for. Perfect for retracting safe lock bolts (when the lever screw has been drilled), for fishing back relock devices, and countless other tasks. Natural finish, no-roll wood handle securely holds a tempered steel blade.

Wood Handle Ice Pick

#MC09 $7.50 ea. or (2) for $6.50 ea.

CDX-07/08/09 Jig

Proper strike installation is critical to the operation of CDX-07/08/09 door locks. This tool makes perfect alignment of the lock and strike as easy as can be. The jig is machined from aluminum and has hardened steel inserts to guide your drill during installation. Don't take chances with expensive doors and locks! Use our exclusive jig to do the job right the first time.

CDX-07/08/09 Installation Jig

#MB29 $255.00

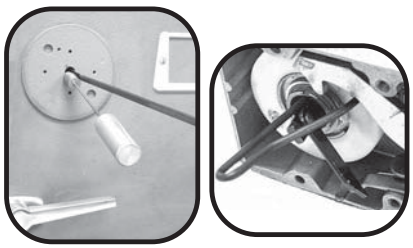
X-08/09 L.O.B.C. Fixture

The X-08/09 safe lock is equipped with an L.O.B.C. (Locked On Back Cover) that cannot be removed unless the lock's combination is known. If the combination is lost, but the lock serial number has been recorded, the combination may be changed using the serial number (provided you can get to the back cover to insert the change key). This fixture is designed to enable back cover removal with minimal damage to the lock when the combination and the serial number are both unknown. You must have access to the back cover to use the fixture. Once the lock cover has been removed, the serial number can be recovered and used to set a new combination.

X-08/09 L.O.B.C. Fixture

#MB36 $75.00

Safe Opening Tool Kit

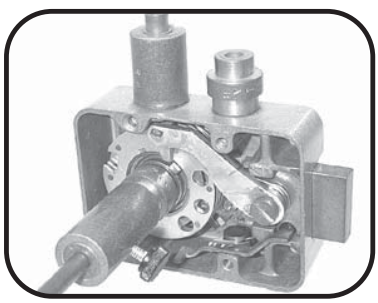


This kit is designed to be used after a safe has been subjected to a burglary attempt. Entering through the existing hole, they not only align the wheel pack, but also hold the relocker aside so that the safe can be opened quickly and easily. The set of six comes in a roll-up case and includes tools for the most popular mechanical locks: S&G (both old and new styles), Mosler (302 and 402), and La Gard.

Safe Opening Tool Kit

#HPC-NST-6 $114.50

D.R.A.T.



DIAL **R**ING **A**LIGNMENT **T**OOL

When installing safe locks, it is important that the dial is centered with on the wheel post or "binding" will occur and the lock will not operate correctly. Here is a tool that will eliminate that problem. The Dial Ring Alignment Tool or D.R.A.T., is designed to use the wheel post of a safe lock to align the dial ring and permit proper operation of the complete lock assembly. Speed up and simplify your safe lock installations with the tool that helps you do it right the first time!

D.R.A.T. - Standard

SAFE TOOLS

STUV Decoder

This kit was developed by Mark Bates and Martin Newton, and is designed to decode and open the STUV 4.19.92 7 lever safe lock. The kit contains everything you will need EXCEPT an appropriate borescope and light source. A quality prism scope with a 70 degree DOV and a diameter of 4mm or less is ideal.

The kit contains 12 specially cut reading keys that permit the user to isolate six of seven levers and visually decode them. The remaining lever is reduced to only 3 possible depths. A quality variable key (designed by John Falle) is used to build each of the three possible codes, one of which should open the lock.

STUV Decoder

#MB86 $695.00

KIT CONTENTS

1	Variable Key Stem
24	Variable Bits (4 of each depth)
1	.9mm Hex Key
12	Specially Cut Reading Keys
1	Decoding Chart
1	Dry Erase Pen
1	Compact Storage Box with Instruction Cards

S&G Padlock Recovery Tool

If an error is made when setting a new combination to a Sargent & Greenleaf padlock, models 8077 or 8088, the lock can be reset if the change key hole is still open and accessible. This set includes the two reset keys necessary to perform a combination recovery on these padlocks. The keys are come in a reusable box with complete illustrated instructions.

S&G Padlock Combo Recovery Set

#MB92 $29.95

Hard Plate Punches

These hardplate punches have been field tested. The set has a 3/4" hex steel handle w/set screw to retain and change punch shanks. Punch lengths are 6", 12", and 18". The actual working length is 1/2" less when clamped in the handle. Also included is a square block, drilled through and with a set screw (for the user who wishes to grind the points to a chisel point or pyramid) and a hex key.

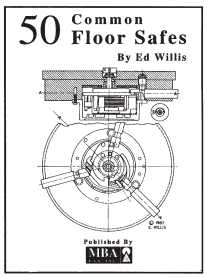
50 Common Floor Safes



Working closely with author Ed Willis, MBA USA has published a specialty volume of the Illustrated Safe & Vault Manual. This book contains drawings found in the original volumes and supplements but is more specific in its focus. "Fifty Common Floor Safes" actually includes more than 50 scale drawings of these safes which are most commonly found in the field. This book is compact enough to carry in your service vehicle and a great way to have access to Ed's fine drawings without having to buy the full set.

50 Common Floor Safes

#WC01 $115.00

LG3330 Cutaway

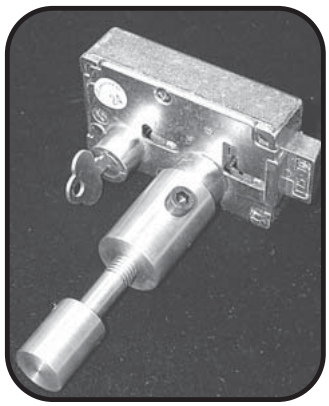
Diebold 175-70 Pick



Expert technicians know that opening a lock is only half the battle - many locks are difficult or impossible to find replacement parts for. That's why our Diebold 175-70 safe deposit lock pick is so popular with lock professionals! This pick (which requires minimal practice) can help you swiftly open the 175-70 with ***no damage whatever!*** The lock can then be easily reset to new renter keys (reset tool included). Full instructions included.

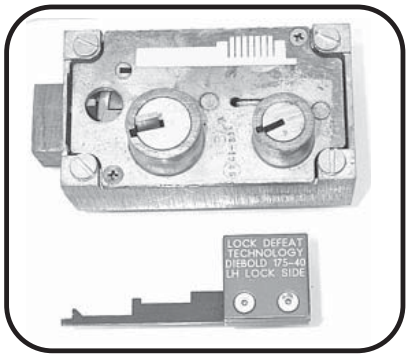
Diebold 175-70 Pick
#JC06 $159.00

Time Lock Servicing

By Dan Graffeo
This new book is a must for anyone who services or wants to service time locks. Step-by-step instructions and photos guide you through the disassembly, cleaning, lubrication, and reassembly of common timelock movements. Chapters on design, hand and ultrasonic cleaning, and electronic movements round out this important addition to the lock technicians' library.

Timelock Servicing Fundamentals
#TM11 $230.00

Safe Deposit Bypass Tools



The answer to every locksmith's dream. These separate kits allow you to open three different models of safe deposit lock with no skill or damage whatever! Each kit comes with detailed instructions, a sturdy turning tool, and 10 non-reusable tips that will open 10 locks.

Extra tips for any of the above tools are only $4.95 each (specify tool).

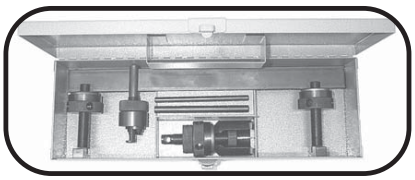
Diebold 175-40
#LD08 $159.00

Nose Puller Kit

This heavy wrought iron and bar steel set is expertly machined and finished to effectively pull the renter plug from most safe deposit locks. Strong, gradual pulling power is the key here! Once the renter plug is pulled, the guard key is inserted and turned and the bolt can be fished back with a wire probe. Some locks cannot be opened using this method (sometimes you just can't tell until you've tried). In this case, the door needs to be pulled.

Safe Deposit Nose Puller Kit
#HPC-NP-4B $104.50
Replacement parts available.

Door & Nose Puller



MBA USA, Inc. is pleased to offer this classic HPC safe deposit door and nose puller at a very attractive price! The kit contains everything you need to quickly and professionally open most safe deposit boxes. Complete with instructions and housed in a durable metal carrying case.

Comments:

If you want a lot of drawings of safe deposit locks and no really helpful information - then this is definitely NOT the book for you. IF, however, you want over 100 pages of hard to find depth and space information, THIS IS THE BOOK FOR YOU. Written by safe deposit expert John Cannon, this manual will save you hours of frustration when you are fitting keys. Locks from Bates to York and everything in between are included.

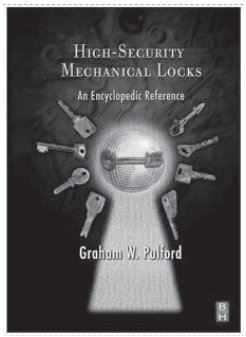
High Security Mechanical Locks



By Graham W. Pulford
High-Security Mechanical Locks comprehensively surveys and explains high security locks with over 100 different locks categorized into 6 basic types. Each chapter introduces the necessary concepts in an historical perspective and further categorizes the locks.This is followed by detailed "how it works" descriptions that includes many pictures, diagrams and references. These descriptions are based on actual dissections of the locks. All the locks are key operated mechanical locks. This is a "how it works" book and does not deal with installation or servicing. A great reference.
High Security Mechanical Locks
#MB74 $84.95

XO Troubleshooting CD

We get a high number of calls asking us to troubleshoot X-0 series locks. You ask - we respond. Our exclusive CD walks you through most any trouble you may encounter with X-0 lock series. Just identify the X-0 model you are working on and answer simple, logical questions until your problem is solved! **Work on X-0 locks? You need this CD!**

Tann High Security CD

By Mike Oehlert

Before he was the "go-to" man at SAVTA, Mike Oehlert worked for the John Tann Safe Co. He published a book on Tann safes in 1990 complete with photographs, dimensions, weights and detailed drilling information. Though long out of print, this book is sought after by those who work on high security safes. Through special arrangement with Mike, we have resurrected his book in an easy-to-use CD format. All information that was in his original book can be found here including the extensive key to his coded drill points. Over 125 pages of photos, facts and figures that no safe technician should be without.

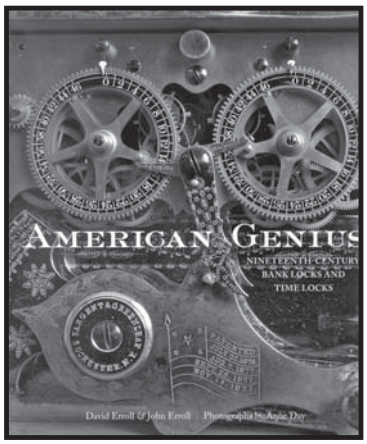
GSA Container ID

A Comprehensive Guide to Understanding and Identifying GSA Approved Security Containers and Vault Doors
By Joe Cortie and Andy Dennison
GSA Container Identification contains approximately 100 pages of information on GSA approved security containers and vault doors. This full color book is packed with information on all types of GSA approved containers including tips on how to tell one manufacturer's products from others, and identify products often mistaken for GSA approved products that are not. The more than 50 year history of GSA containers has brought many changes in specifications and designs. The authors have worked diligently to research these changes and make the most accurate, up to date reference on GSA approved containers and vault doors available.
GSA Container Identification Book
#MB88 $125.00

ABOUT THE AUTHORS....
MBA is proud to have Joe Cortie and Andy Dennison as instructors for our company. Their GSA expertise insures that our students receive the best training available for GSA Inspectors and Technicians.

See pages 75-79 of this catalog and visit our web site for training available with MBA USA, Inc.

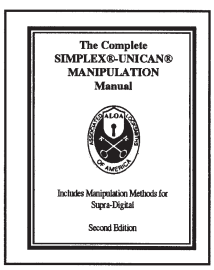
American Genius



By David Erroll and John Erroll
The most beautiful book on locks we've ever seen. It is an insightful history of the golden age of American safe locks, extremely well-researched and profusely illustrated with brilliant color photographs. The authors (David Erroll and John Erroll) have spent years researching nineteenth century locks and the creative people who brought their visions to reality. Glorious examples of these incredible devices were photographed by renowned photographer Anne Day. Material was drawn largely from the Mossman Collection in New York, as well as private collections.

American Genius
#AG $75.00

Simplex Manual



The second edition of the Simplex®-Unican® Manipulation Manual is now available. The information in this book will show you how to gain entry into these popular push button locks without damaging the lock or the door they are mounted on. Illustrated.

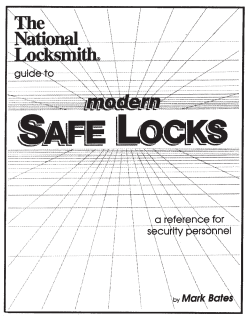
Modern Safe Locks



By Mark Bates
Information for over 100 modern key, combination, and electronic safe locks from around the world are featured in this book. Written to catalog locks manufactured from 1950 to 1994, it is profusely illustrated with hundreds of photographs and line drawings. This 300 page plus reference book is a must for anyone who buys, uses, specifies or services safes.

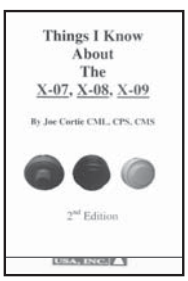
Modern Safe Locks
#MB08 $115.00

How to Pick Lever Locks

By Mark Bates
Here is your opportunity to teach yourself how to pick lever locks with a Hobbs Pick. This book is an introductory guide to lever locks, how they work, and how they can be opened using a Hobbs Pick. All the basics are covered in this easy to read illustrated book.

How to Pick Lever Locks
#MB23 $19.95

Things I Know



By Joe Cortie
Joe Cortie has often said, "The things I know about the X-0 locks could fill a book!" He was good to his word, so now we offer his book on the X-0 lock series. Includes history, operation, troubleshooting, drilling and installation. We sold out the first printing with "word of mouth" advertising, so get your copy today.

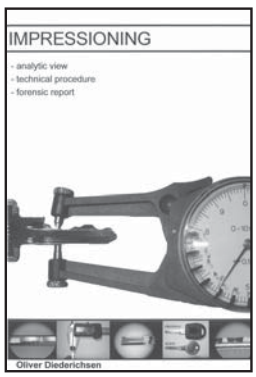
Things I Know 2nd Edition
#MB11 $125.00

Safe Technician's Manual

By Mike Oehlert
This safe manual belongs in every technician's reference library. Originally designed as a two volume set, Mike combined both into a single book filled with about all the information a safe technician needs. The book covers everything from mechanical and electronic locks to time and safe deposit locks. Filled with information from the basics, such as door handing, to the complex, this book is also a great study aid for PRP and STPRP certification tests. MBA USA highly recommends this book to anyone currently working in the industry, and especially to those interested in safe work. Extremely well illustrated.

Safe Technician's Reference Manual
#MT03 $135.00

Impressioning Book



By Oliver Diederichsen
This is without a doubt the best book available on impressioning. Excellent color close-up photographs coupled with a thorough technical analysis of various methods makes this book really stand out. Among the book's topics: Key blank composition; measuring and optical aids; blank preparation; and much more. Pin type locks, warded locks, wafer locks, and lever locks are each addressed in this work. Over 100 pages. Printed in Germany.

Impressioning Book
#MB76 $150.00

Illustrated Safe & Vault - Volume 1

By Ed Willis
Amsec, Diebold, Hall's, Sargent's, and Yale are just some of the many manufacturers represented by the full-scale drawings expertly rendered by Ed Willis for these fine books. Each page is an X-ray view of a wide variety of the safes and safe locks found in the field. Use these drawings to help you locate precise drill points or answer almost any question you have about the inner workings of any of the lock manufacturers and models contained in Volume 1. Every page is individually numbered and registered to the buyer. Supplements can be ordered, but only after the initial purchase of Volume 1, as the supplements are meant to continue and support, not stand alone.
Illustrated Safe & Vault Volume 1 and all supplements are now available on CD. Here's the deal: if you already own the book version of this manual, you can purchase the CD version for $95.00. We will need your book registration number to match up with our records to sell you the CD at this price. The CD version is also available for $571.50 without previous book purchase.

LED Borescope Light

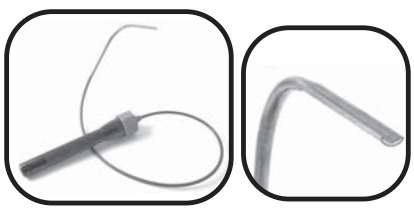
After much research and testing, we have finally come up with a superb portable light source for your borescopes. This light achieves the perfect balance between cost and performance. Here is why our light is the best available today:

• 1.25 Watt LED will virtually last a lifetime
• Custom lens concentrates the light to the perfect spot for your scope
• Battery life is greatly extended with an LED
• Uses easy to find and affordable AAA batteries (included)
• Standard ACMI adapter fits most modern borescopes

This borescope light source is less expensive to BUY and MAINTAIN than competing products - yet still produces substantially more WHITE, USEABLE LIGHT than other light sources.

Premium LED Light for Borescopes
#MB58-A $141.00

Fiber-Optic "Moonlight"



This Mini-Maglite® attachment is designed to fit into a 1/4" opening for viewing inside of a drilled hole. The eleven fiber-optic elements of the "Moonlight" illuminate the inside of the safe and the crescent moon shape of the inserted end covers only 20% of the viewing area. This allows an 80% unobstructed view with a high intensity beam of light. (Flashlight not included)

Fiber-Optic "Moonlight"
#K-LIT-M $29.95

Interior Inspection Light

This outstanding light enables the security technician to view through a 1mm or greater opening with the aid of 17 adjustable lenses. By turning the lens wheel, you can select a lens from a variety of focal lengths for a sharply focused, magnified image. These lenses are designed so that an object at a distance of 5mm to 250mm can be focused. The design of this light makes it ideal for examining keyways and a variety of safe servicing tasks. Made from high impact thermoplastic with a metal screw thread attaching the head to the handle. Comes with two AA batteries and a replacement halogen bulb.

Interior Inspection Light
#HE02 $255.00
Spare Halogen Bulb
#HE02-A $42.00

Inspection Kit

MBA USA has also made the two German inspection lights available as a kit. You get both lights in a case. The custom made, foam lined case is designed to hold both the Surface Inspection Light and the Interior Inspection Light. It also has space cut into the foam to hold two replacement batteries and two spare light bulbs.

Inspection Light Kit*
#HE05 $455.00

***Contents of kits subject to change without notice. See page 73, Catalog Contents for details.**

Surface Inspection Light

An exceptional example of German optic equipment, this light is a superb instrument for surface inspection. The illuminated viewer will magnify and light any surface, making it ideal for such tasks as night time impressioning. Its 5x magnification offers outstanding clarity. This instrument is lightweight with a metal head and a body of high-impact thermoplastic. It fits in a shirt pocket. Uses two AA batteries. Comes with batteries and a spare halogen bulb.

Surface Inspection Light
#HE03 $195.00
Spare Halogen Bulb
#HE03-A $42.00

Key Impressioning Magnifier

This magnifier has been specially altered to make it the perfect tool for key impressioning. This item has been machined away in a critical area to permit the user to take full advantage of the powerful 10X magnification! Fits securely on the end of any Mini-Mag® flashlight. Comes in a handy storage tube. (Flashlight not included).

10X Key Impressioning Magnifier
#MB16-A $29.50

The Visual Viper

The Visual Viper is a premier digital inspection scope with video output. This handy tool is ideal for examining hard-to-reach areas normally hidden from sight. The 2.5" full color LCD screen provides crystal-clear video from the miniature imaging sensor at the tip of the 42" watertight shaft. The bright, white LED light combined with the autofocus and sensitivity of the camera allows you to view objects as close as 3/8". The ergonomic design and magnetic back allows for convenient operation. Use for internal inspection of safe doors, look for remote relockers, find disconnected boltwork parts, and more.

The Visual Viper requires a larger than usual hole for safe drilling (3/8"), but the clarity of the video and the affordable price make the Visual Viper a tool for all serious Safe Technicians.

The Visual Viper

#VV1 $450.00

Economy Surface Inspection Light

An economical Bausch and Lomb magnifier on a handle which houses two AA batteries. Light shines through the lens to illuminate being object viewed. This light has 10x magnification at 1" (25mm) working distance.

This light is a great step towards our halogen Surface Inspection Light (Part #HE02) for those who want to see how indispensable using a magnified light is when impressioning or examining keyways. Comes in a case with a Velcro closer.

Economy Surface Inspection Light

#GRO-29268 $44.00

Pocket Otoscope

This German-made product is perfect for inspecting lock cylinders or aligning the gates of combination locks. Comes in a soft carrying case. Don't let the low price fool you - this is one nice otoscope.

Pocket Otoscope

#BV K-248

$99.00

Hawkeye Rigid Video Borescope

The new Hawkeye Rigid Video Borescope offer the convenience and image quality of video, built right into the scope with integrated CCD cameras! No more straining to look through an eyepiece all day long. When used with the portable Video Monitor or a computer, image and video capture is easy as the touch of a button. These scopes have all the features and excellent optics of Hawkeye Pro Rigid Borescopes, including patented e2 endoGRINs® lenses, delivering bright, crisp, clear images. This scope can be used with a portable video monitor or a laptop equipped with a USB device and software. The kit comes with a Rigid Video Borescope, an LED light source, 90˚ DOV mirror tube, video cable and carrying case. Add the portable video monitor or laptop software with USB2 device for viewing or video capture. The scope is available in a variety of widths and lengths. Call MBA or see our web site for more information.

Hawkeye Borescopes

JUST FOR SAFE TECHNICIANS!

Hawkeye Borescopes have been the choice of safe and vault technicians for over 15 years. The optics in these scopes deliver images that rival German products but at more affordable prices. They are sized to fit the standard 1/4" (6mm) hole commonly used for safe work. Each Hawkeye kit has a 45˚ field-of-view and includes a 90˚ adapter for right angle views. The mirror technology resists scratches from insulation, asbestos, and burrs. The built-in light source is a Mini-Maglite® flashlight. All scopes feature a focusing eyepiece as standard equipment. Every kit comes in a aluminum carrying case. Remember - the red eye cup tells you that you have the scope made specially for safe and vault technicians.

Hawkeye 7" Borescope Kit*
#HS07-AF-Kit $770.00
Hawkeye 12" Borescope Kit*
#HS12-AF-Kit $815.00
Hawkeye 17" Borescope Kit*

22" Hawkeye

22" Hawkeye Borescope (with SuperNOVA) #HS22-AF-NVK

Great news from Hawkeye - a new, longer, red-eyecup borescope is now available! This new scope is 22", 5" longer than the 17" borescope that has been the standard long scope from Hawkeye. It features the same enhanced optics of the new red eye-cup borescopes, the same new mirror technology that wards off scratches and has an adjustable focus. This new scope can be purchased alone, with a 90˚ mirror tube or as a part of one of two kits. One kit (HS22-AF-KIT) includes the 22"scope and 22" mirror tube in a case. The other kit (HS22-AF-NVK) also includes a new SuperNOVA re-chargeable light source and recharger. The SuperNOVA can also be ordered separately (see page 55).

22" Hawkeye Borescope Kit* (with Mini-MagLite® light source)
#HS22-AF-KIT $1,495.00
22" Hawkeye Borescope (with SuperNOVA)
#HS22-AF-NVK $1,895.00
SuperNOVA Light Source
#HS-Supernova $225.00

Although this kit comes with the Mini-Mag light, we recommend the SuperNOVA or other light source for this longer scope.

Contents of kits are subject to change without notice - please see Terms of Sale; Catalog Contents on page 73 for more information.

Hawkeye Pro Series Scope

The new Hawkeye Pro kit has these great features:
• LightConcentrator™ that allows more light into the scope from the light source
• An independent focusing ring controls the image for video/photography use
• New endoGrins® e2 optics that give a sharper, more detailed image
• Multi-Coated Objective lens for higher contrast and more vivid color
• New 90˚ mirror that is more durable and easier to clean.
Available in 4 lengths, the Pro also features the rechargeable SuperNova light source.

KIT INCLUDES:
- **HAWKEYE Pro Borscope**
- **HAWKEYE Mirror Tube**
- **HAWKEYE SuperNova Light and Charger**
- **Aluminum Carrying Case**
- **HAWKEYE Cleaning Kit**

Hawkeye Swing Prism Scope

The Hawkeye Blue Swing Prism borescope has a tiny prism at the tip that pivots or "swings", to vary the direction-of-view from 16˚ to 118˚. A ring on the borescope body controls the prism direction. The field-of view is 45˚, so the scope effectively sees from -7˚ to 133˚. Another ring focuses the borescope and a third rotates the tube over more than 360˚, sideways in any direction without turning the body. The ACMI light post will accept fiber-optic cables and the SuperNova light source (see page 55).

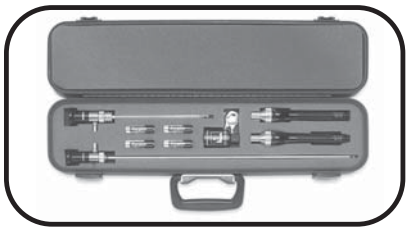
Grand Opening Kits



Here is a great way to get a 7" and a 17" Hawkeye borescope all in one kit. With the Grand Opening Kit, you are ready to scope most safes, whether you need to drill a hole in the front or the side of a container. This kit is offered with eyepiece adjustable borescopes. The foam in the case is cut specifically to hold the 7" scope with 90˚ mirror tube, the 17" scope with 90˚ mirror tube, (4) spare batteries, (2) Mini-Maglite® light sources, and cleaning solution. As a special bonus, this kit also comes with a Scope Saver (see page 54) to protect your investment.

Grand Opening Kit with Adjustable Focus*
#HSGRAND-Kit-AF $1540.00

"Limited Edition" Hawkeye

The "Limited Edition" Hawkeye Borescope is an opportunity to add a borescope to your tool collection at an affordable price. This model comes with a factory pre-set focus which can be adjusted with a tool that is provided in the kit. (The scope can be retrofitted at the factory with a focusing eyepiece for a fee if desired). A 90˚ mirror tube, and Mini-Maglite® light source are also part of this kit which comes in a fiber box.

7" Limited Edition Hawkeye
#HS07-LE-Kit $645.00
17" Limited Edition Hawkeye
#HS17-LE-Kit $745.00

Super Slim Kits

The needle-nosed SuperSlim is just 95 thousandths of an inch in diameter (.109 with mirror tube). It slips through the tiniest openings to give sharp, clear views. This micro-borescope has a 32˚ field of view and a 0˚ direction of view which can be altered to 90˚ with a mirror tube. It comes with a protective sheath for use when storing or transporting. The kit includes the borescope, 90˚ mirror tube, and carrying case. Note: Micro-borescopes are quite delicate and must be treated more carefully than larger diameter scopes.

4" Super Slim Kit*
#HSS04-AF-Kit $1495.00
8" Super Slim Kit*
#HSS08-AF-Kit $1595.00

Micro Slim Kit

The slimmest borescope in the Hawkeye line at less than 73 thousandths of an inch (.087 with mirror tube). Due to the dispersion of these new lenses, even a scope in this micro-diameter delivers large, bright images. Length 3" and F.O.V. 40˚. WARNING: These scopes are extremely thin and extremely delicate. They can be easily broken so use utmost care and concentration when using.

Hawkeye Micro Slim Borescope Kit*
#HS-MS03-AF-NVK $1695.00

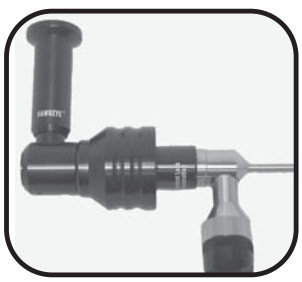
Contents of kits are subject to change - please see Terms of Sale; Catalog Contents on page 73 for more information.

Borescope Light Source

Our new 3 watt borescope light source is twice as bright as some other lights. This super bright, heavy duty industrial light runs up to 2-1/2 hours on 3 AAA batteries. Think of it! Over two hours of run time on inexpensive, readily available batteries. No chargers to fool with or expensive, short-lived rechargeable batteries. The compact size (6" long and about 1-1/2" at it's widest point) makes this light easy to transport. Complete with ACMI fitting, which is compatible with most modern borescopes. Comes in a cordura fabric pouch.

Super Bright 3 Watt Borescope Light
#MB80 $325.00

Hawkeye Angled Eyepiece



Don't you just hate lying flat on your stomach in some greasy fast-food restaurant - trying to get low enough to see through your borescope's eyepiece? I thought so! Your body will thank you for using this superb 90˚ eyepiece adaptor from Hawkeye. It has its own focus and is precision made to couple quickly and securely to your Hawkeye scope. Just think of it... no more french fries stuck to your shirt!!

Angled Eyepiece
#HS-AE9003 $275.00

Compact Light Source

What an excellent addition to your safe service tools - a compact light generator. The Luxxor 24 is not much bigger than a cigarette pack yet gives exceptional bright, white light. The metal-halide arc uses only 24 watts but is 60% brighter than a typical 150-watt halogen lamp. The box doesn't get hot and there is even a mechanical iris which can vary the light intensity without changing the daylight brightness this mighty little light source provides. Use with the light guide sold below.

Luxxor 24™ Light Generator
#HS-LXX24 $775.00
#HS-LXX24-A $775.00 (220V)
Luxxor Lamp
#HS-LXX-Lamp $180.00

Luxor Light Guide

This fiber-optic light guide has a .16 inch (4mm) effective diameter, a length of 7'-6" (2,286mm) and industry standard ACMI fittings. The perfect connection between your Hawkeye and the Luxxor light generator.

Luxxor Light Guide
#HS-LXXLG $225.00

Light Generator

This optic illuminator is lightweight, compact, and housed in a rugged aluminum case. It features a 150-watt halogen lamp and a front panel mounted rotary dimmer, allowing this light source to provide reliable, uninterrupted, subdued or concentrated fiber-optic light.

150 Watt Light Generator
#CT-FO-150-115 $320.00
Spare Halogen Lamp
#CT01-A $27.50

Fiber-optic Cable

Use this fiber-optic cable with the 150 watt light generator described above. Complete with a female ACMI plug on one end. The diameter is 5mm, the length 6 feet.

Fiberoptic Cable
#FT01 $149.00

Premium Pinning Tray

NEW

BACK BY POPULAR DEMAND!

- All Metal Pinning Tray - Perfect weight and very durable.
- Stackable - stack a dozen or more, takes up less bench space when not in use.
- Matte-black powder coat finish provides excellent parts contrast.
- Pin Chambers are numbered 1-7
- Handy parts tray for things like covers, clip and tail pieces.
- Plug area accomodates plugs with key inserted.
- When bumped, the square pockets keep pins in place, great for combinating with tweezers.

Premium Pinning Tray
#A1 WT2 $24.95

Crocodile

NEW

This is a brilliant instrument originally designed for removing foreign objects and performing surgery inside the ear. Unlike a hemostat, only the crocodile jaws at the very end open. You can actually pass the end through a 7/32 inch hole and still open and close the jaws!

An extremely versatile tool for removing broken drill bits and metal shavings from drilled holes on safes, as well as other uses where a long reach is necessary through a small opening.

A precision instrument crafted of highly polished stainless steel. NOT for medical use.

Crocodile - 5-1/2”
#MIC60357 $19.95
Crocodile - 12”
#MIC82561 $29.95

Jiffy Impressioning Tool

NEW

Pro-Lok Jiffy Standard Impressioning Tool will hold most standard flat keys and the flat bow tubular keys. There is no need for a lot of force in clamping the keys with this tool. Impressioning is accurate and easier with a handle that tightly grips the bow.

Pro Lok Jiffy Standard Impressioning Tool
#LT700 $37.30

Vise Mounted Wire Bender

NEW

This wire, rod and strip bender makes angles, loops, eyes, U, C and S shapes in brass, copper, and steel, quickly and easily. It even bends the hardest music wire up to 1/18 inch diameter. Made of steel with rust resistant black oxide finish and hardened radius pins. 7 inch-long arm and rubber grip gives extra leverage for tough materials.Must be locked in a vise (not included) during use.

Vise Mounted Wire Bender
#MIC60346 $12.95

Hard Wire Cutter

NEW

Stop wearing out your pliers when cutting wires to make into tools! These hard wire cutters are just the thing to cut hard wire. The sharp, hardened jaws and 15-to-1 leverage combine to produce a powerful shearing action that cleanly cuts music and spring wire up to 1/16” diameter and wire rope (control cable and picture-hanging wire) up to 3/16” without frayed ends. Blackened steel handle has return spring and vinyl grips. 7-1/2” long.

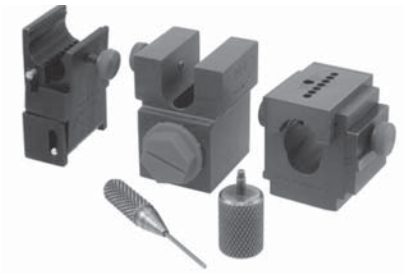
Hard Wire Cutter
#MIC82477 $15.40

Master Follower

This remarkable follower is a wise choice for either the newcomer or master locksmith. Made of solid brass, it will out last those made of plastic or aluminium. It can be used as a regular follower or as a master pin remover and follower on Schlage, Sargent, Kwikset, Wesier, Almont padlocks and many others. Special taper allows smooth operation and better control over sticking pins.

Master Follower
#K-6 $16.50

I/Core Tool Kit

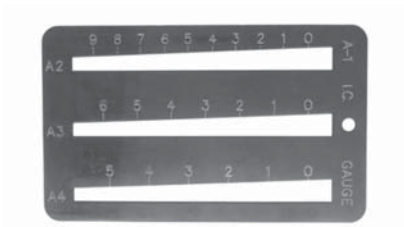


Everyone likes to save money! Now you can purchase the capping block, decoding block, and the dumping block as complete kit. The capping block will cap standard "Best" style plus will also work with "Falcon" style cores that utilize spring covers. The decoding block is an excellent solution for determining control key bitting for core removal. Block holds the core securely while the pins stacks are ejected. The pin stacks stay separated and in order.The dumping block will store the contents of dozens of cores. Security is maintained but leaving no trace of control key codes. Ejector and capping punch included.

Interchangeable Core Tool Kit

#A1 ICKT $199.50

I/C Three Slot Key Gauge



Steel key gauge for determining I/C key bitting. This tool will decode A2, A3, and A4 keys. A must have tool if you work with Interchangeable Cores.

Interchangeable Core 3 Slot Key Gauge

#A1 4 $17.50

Pak A Punch Model 3T

Unequalled precision & versatility. Code cuts Automotive plus Kwikset, Schlage, I/Core & Master. Because the punch and die are interchangeable, this machine will punch all angles of cut. Now punch both Domestic & Foreign with one machine. Interchangeable kits are available. Contact MBA USA, Inc. for details or see our web site at www.mbausa.com.

Pak A Punch Model 3T

#A1 PAK-3T $359.00

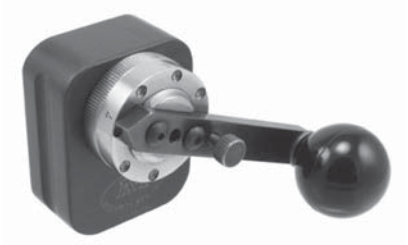
Waffle Tray

This tray is a handy parts tray for lock cylinders. Keep those pesky pin tumblers in their place. Slots for bottom pins, master pins, control pins, and top pins. Even space for all those extra little parts as well.

Waffle Tray

#A1 WT1 $20.95

Tubular Code Cutter



A-1's Herty Gerty is a compact, hand-operated tubular key machine. Code cuts #137 standard tubular blanks, offset left, offset right, and even pin within a pin (requires Accessory Cutter #CS). Cuts any spacing from 0˚ to 360˚. The Herty Gerty may also be used to duplicate by using the tubular key decoder which is included. Herty Gerty includes standard cutter, dial, decoder & case.

Tubular Code Cutter

#A1 HG1 $365.75

Tubular Decoder

Neat tool for decoding tubular key locks. Can be used to decode an actual key or used in conjuction with a tubular pick to determine the lock's code. Easy to use!

Tubular Decoder

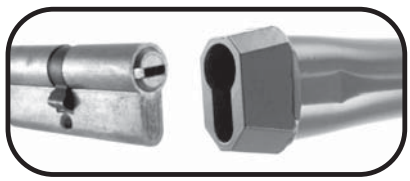
Euro-Profile Snapper



Designed and made in England, this snapper (PS15) is for Euro-Profile cylinders. It exploits a weakness common to these cylinders, and breaks the cylinder in half. To be effective, the cylinder needs to protrude 8-10mm for the snapper to fit on. Once broken, the cylinder can be removed and the bolt retracted using our Bolt-Retractor Kit (PS16)

Euro-Profile Cylinder Snapper
#PS15 $99.95

Euro-Profile Cylinder Bolt Retractor
#PS16 $69.95

Börkey Graphite

Ratchet Screwdriver

Our 15-in-One screwdriver is just the thing for your tool box. Saves space by having 15 useful driver tips stored in a two-way ratchet handle. Includes Phillips, Slotted, Square and Torx driver bits.

Ratchet Screwdriver

#MB07-A $14.95

MBA USA Screwdriver

Keep our pocket screwdriver close by for all those times you need a slotted or phillips tool fast.This pocket screwdriver has a durable handle with a slotted/phillips interchangeable shaft. Imprinted with our web address so you can order what you need fast and secure online!

MBA Double Ended Screwdriver

#MB07 $2.95

Key Extractor Set

MBA has combined six of HPC's finest key extractors as a kit. Each tool is designed to help remove a variety broken keys from a variety of keyways. Which tool you use will depend on the type of keyway and how the key is broken inside. We include a durable interlocking case for storage. Handy to have and at a nice price for quality tools.

6 Piece Key Extractor Set

#MB61 $28.00

Hollow Brass Follower

This set contains 3 popular sizes of hollow brass followers. Use these followers on a variety of locks including the Corbin Russwin heavy-duty knob lock cylinder units. The small diameter follower is useful for cabinet locks, peanut size cylinders, and pin tumbler letterbox locks. This compact kit is efficient and lightweight. All three followers fit in each other for convenient storage and then slide into a double-ended capped tube for protection. Set of 3.

Hollow Brass Follower Set

#HPC-SUT-14 $19.95

Quickpull Tools

Quickly remove snap in cylinders without removing the lockset for disassembly. Works on Kwikset™ except (Smartkey™ and deadbolts). Will also remove cylinders (with minimal damage) from Dexter/Master™ key-in-knob cylinders as well. A great addition to your tool box! Replacement blades are available. Comes with instructions.

Quickpull

#A1 QP $79.50

Replacement Blade

#A1 QPBL $5.25

Similar to the Quickpull for the Kwikset knob sets, this new tool removes knobs for the Schlage F series. This tool will work on both the "old" (2 piece knob) and the "new" (1 piece knob). Using the additional tools included, replacement of the original knob and cylinder can be accomplished quickly and effortlessly, saving valuable time on the job. Replacement blades are available. Comes with instructions.

Quickpull 2 for Schlage

#A1 QP-2 $89.95

Replacement Blade

#A1 QP2B $10.00

Repair Kit

#A1 QP2RP $29.49

LOCK SERVICE TOOLS

#HPC-LHR-LSCREW $14.35

Small Pin Depression Screw

#HPC-LHR-SSCREW $14.35

Cylinder Shims

If you need to re-pin a cylinder and do not have the key, shimming it open is an easy, effective solution. These stainless steel shims are strong and firm.

Steel Cylinder Shims

#MS-CSS/25 25/PK $3.90

#MS-CSS/100 100/PK $12.90

Grobet Precision Files

Grobet began making files in Switzerland in 1812. These files are made with the precision the Swiss are famous for yet the prices are very reasonable. These are tools every locksmith should own. **REMEMBER** - When ordering files, the HIGHER the number of the CUT, the FINER the file pattern.

PIPPIN FILES

This is a great file for impressioning keys.

Part No.	Length	Cut	Uses Handle #	Price
GRO-FP6/0	6 Inch	0	GRO-FH4	$62.75
GRO-FP6/2	6 Inch	2	GRO-FH4	$68.00
GRO-FP6/4	6 Inch	4	GRO-FH4	$79.00

ROUND FILES

Also a good impressioning file.

Part No.	Length	Cut	Uses Handle #	Price
GRO-FR6/0	6 Inch	0	GRO-FH3	$16.50
GRO-FR6/2	6 Inch	2	GRO-FH3	$20.00
GRO-FR6/4	6 Inch	4	GRO-FH3	$23.25
GRO-FR8/4	8 Inch	4	GRO-FH3	$32.00

SWISS WARDING FILES

Parallel in thickness and tapered in length. Cuts on all surfaces.

Part No.	Length	Cut	Thickness	Uses Handle #	Price
GRO-FW6/2	6 Inch	2	5/64”	GRO-FH4	$27.00
GRO-FW6/2ST	6 Inch	2	.049”	GRO-FH4	$32.75
GRO-FW6/4	6 Inch	4	5/64”	GRO-FH4	$31.50

AMERICAN PATTERN WARDING FILES

A popular file with locksmiths. This double cut file tapers to a point and is thin enough to fit where other files won’t.

Part No.	Length	Cut	Thickness	Uses Handle #	Price
GRO-FW4/B	4 Inch	Bastard	3/64”		$8.00
GRO-FW6/B	6 Inch	Bastard	5/64”	GRO-FH4	$8.80

File Cleaner

Restore files by unclogging metal particles lodged in the millings. Steel wire bristles mounted on wood back and handle.

File Cleaner

#GRO-33981 $7.75

File Handles

Unbreakable plastic, with a textured surface for a non-slip grip. Specially shaped to fit the hand for working comfort, even over long periods. Tang-gripping insert is tempered metal, with two threaded sections of different diameters. This assures proper alignment and positive hold for files and also allows handles to be re-used. Simply unscrew the file in use and insert a new one.

File Handles

#GRO-FH3 $3.50

#GRO-FH4 $4.00

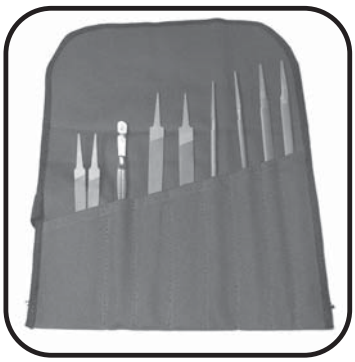
Center Punch

This inexpensive little tool can save you hours of frustration. Whether you are drilling safes, cylinder locks, or any metal object - use this punch to mark your hole before you begin. The small indentation formed by punch keeps your drill from wandering and assures an accurately drilled hole. Inexpensive enough to put one on every service vehicle and several in the shop.

Grobet Center Punch

#GRO-47900 $2.50 each

Locksmith Tool Kit



This kit combines commonly used locksmith files and even includes some pin tweezers. Comes in a roll-up carrying case.

Locksmith files include:

4 - Warding Files: 4" Bastard, 6" Bastard, 4" #2 Cut, & 6" #2 Cut

2 - 6" Round Files: 2 & 4 Cut (1/4" dia.)

2 - 6" Pippin Files: 2 & 4 Cut

Plus locksmith pin tweezers specially designed to hold .115" pins (the most common) without slipping. Allows you to block the pin against the follower which makes for easy loading of cylinder chamber! (For tweezers sold separately, see page 63).

Locksmith Tool Kit

#GRO-33855 $130.00

Key File Set

Includes six 4" (10cm) files with wooden handles in a plastic case. Files include:

Swiss Pattern Round - Tapered
Swiss Pattern - 3 Square Tapered
Swiss Pattern Square - Tapered
Swiss Pattern - Rectangular Straight
Swiss Pattern - Warding Tapered
Swiss Pattern - Half Round Tapered

Key File Set

#HPC-KFS-6 $29.99

Mini-Miter Cut Off Saw

PERFECT FOR CUTTING X-0 TUBES WITH PRECISION AND EASE! Also just a very handy tool to have in your shop or van. This miter/cut-off saw cuts steel, brass, aluminum, plastic and wood. It has a built-in vise that adjusts for cuts from 45 to 90 degrees. The 2" diameter blade cuts material 3/8" thick by 1/2" wide at 90˚and 3/8" wide at 45˚. The 110 volt AC motor runs at 7,800 RPM and is encased in a high impact housing. The base and vise are cast aluminum. Comes with 1 high speed steel saw blade for cutting wood or plastic and 3 abrasive cut-off wheels for ferrous metal.

Mini Miter Cut off Saw

#MB91 $99.95

Replacement cut-off wheels available

Jamb Pins

Here is an easy way to sell your customer added security. Out swing doors are vulnerable to attack simply by removing the exposed hinge pin and removing the entire door from its frame. Just remove a screw from both hinges and replace them with these specially made jamb pins. When closed, the door can no longer be opened by removing the hinge pin - the jamb pins keep it securely in place! Sold in packs of 2.

Jamb Pins

#MS-JP-10 (Residential) $2.75
#MS-JP-12 (Commercial) $2.75

Power Punch Kit

PERFECT FOR PUNCHING CLEAN HOLES IN OUR GSA REPLACEMENT LABELS! This powerful hand punch can put accurate round holes through all types of materials from thin shim brass and plastic sheet through 16 gauge (.050" thick) mild steel. Includes (7) quick-change, hardened punch-and-die sets in the following diameters: 3/32, 1/8, 5/32, 3/16, 7/32, 1/4, and 9/32. Comes in a molded plastic case for safe storage.

Power Punch Kit

#MIC81530 $49.95

Torque & Tension Tools

Apply the tension you need to successfully pick open a variety of locks. These Torque and Tension tools provide a large diameter opening for easy pick access. The dual prongs assure even torque, keeping the plug in proper alignment. Lightweight with knurled collars for a sure grip. These tools incorporate spring loaded adjustable prongs with spring controlled tension.

Tension Tool

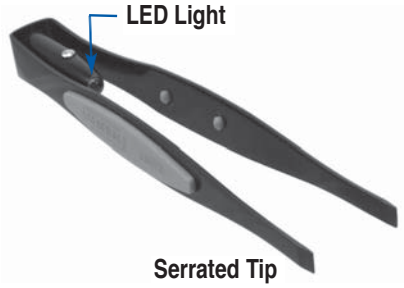
#HPC-TNT-20 $42.50

Same great features described above but its large prongs make this Torque and Tension tool excellent for automotive work.

Tension Tool

#HPC-TNT-21 $42.75

Lighted Tweezers

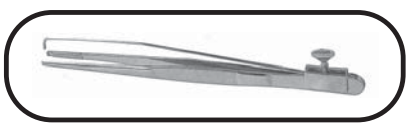


Has re-pinning cylinders become a chore for your eyes? What if you could put some light on the task and improve your view? That is just what these tweezers with the attached LED light aim to do. Push on/Push off powerful LED light with non-slip comfort grips. These tweezers are made of heat treated steel with a corrosion resistant non-glare black finish. They have serrated blunt tips and an overall length of 6.25 inches/159mm. There are (3) "LR41" batteries included.

Lighted Tweezers
#MB79 $14.50

Pin Tumbler Tweezers

Pin Tumbler Tweezers



Tweezers w/Pin Pushing Attachment

We offer two designs of tweezers to use when loading pins into a cylinder. A groove in the tip provides a firm, non-twisting grip on pins for easy loading. The tip is milled back so the outside diameter of a standard .115" pin extends past the tip. The pushing attachment option makes it easier to load top pins. The attachment can be removed to load bottom pins as well.

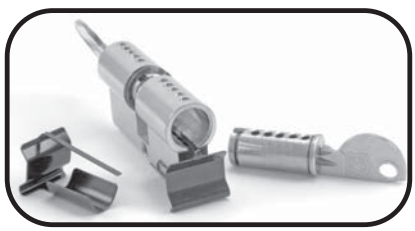
Pin Tumbler Tweezers
#HPC-PTT-4 $11.65
Pin Tumbler Tweezers w/Pin Pushing Attachment
#HPC-TPT-5 $21.25

Cabinet Lock Drill Guide

The cabinet lock drill guide includes important features such as rubber lined jaws to protect cabinet doors and give greater holding power, four sizes of drill bushings (3/4", 7/8", 1-1/8" and 1-1/4") for versatility, and an adjustable stop for repeat installations on the same type of cabinet door. Will work on doors up to 1-1/2" thick and can locate the cylinder hole up to 2-5/8" from the edge of the door. These bushings are designed to be used with clean cutting Forstner-type drill bits and are not compatible with hole saws, paddle or spade-type bits.

Cabinet Lock Drill Guide
#MS-HIT-25 $124.50

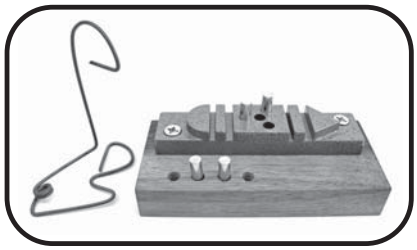
Pinning Shoe Set



Profile cylinders are common on storm and security doors. They can be serviced or rekeyed using these clever pinning shoes from England. Remove the lock's tailpiece, then use a hacksaw to cut back part of the key's bow. Use the modified key to turn the plug 180 degrees, allowing the pin shoe to be inserted in the lock to hold the top pins and springs securely in place. Service or rekey as needed, then reassemble the cylinder. Comes with two pair of long and short shoes, allowing you to service 5 and 6 pin single or double profile cylinders.

Profile Cylinder Pinning Shoe Set
#PS14 $19.95

Wire Bending Jig



This is a great way to make your own professional looking wire tools - without spending a lot of money. Steel pins are moved to different locations in the cast aluminum block depending on the shape you need. The jig has a triangular shape on one end for making bends less than 90˚ and a 1/2" radius shape on the other end for large smooth curves. Can be held in a vise or attached to a work bench with flat head wood screws (not included).

Wire Bending Jig
#MIC60401 $10.50

Metal Forming Pliers

For the technician who wants to see their tool ideas become reality, we present an exceptional set of wire bending pliers. This set will make loops, rings, S, C, Z, and just about any other shape. These pliers can bend strip stock up to 1/32" thick and wire up to 3/32". Made of polished stainless steel with box joints that keep jaws in alignment

Metal Forming Pliers

#PS18 $39.00

Viper Pick Set

NEW

Introducing a new pick set made from highly flexible, .0196 thick polished stainless steel. The large, polished, red anodized aluminum handles are ergonomic with finger grips. The set includes (4) picks (VPR-1 - VPR-4), a turning tool and (2) tension tools. There are five other pick designs that you can purchase separately - choose one or all - whatever you prefer to have in your set. Comes in a case that can be strapped to a belt or slipped in a pocket.

Viper Pick Set
#A1 VPR-S $29.50
Individual Picks
#A1 VPR-1 - VPR-9
$4.95 ea.

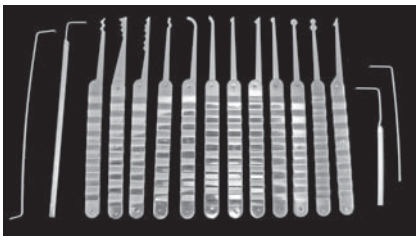
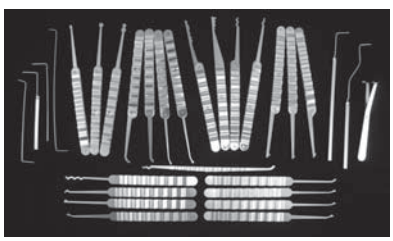
16 Piece Pick Set



If the sense of touch is so important when picking, why are most picks supplied with handles that actually dull your sense of touch? This nice set of picks has Laminated Ripple handles that help transmit the important sensation of touch. At the same time they are easy on the hands, allowing a nice blend of comfort and usability. You get Rakes; Ball Picks; Hooks; Tension Tools and more. Set includes everything you see pictured, plus a nice soft leather case. All tools are Tempered Stainless Steel and Made in U.S.A.

16 Piece Ripple-Handle Pick Set
#MB66 $34.95

30 Piece Pick Set



This 30 piece pick set gives you all the advantages of our 16 piece set PLUS you get 3 different handle styles! It's amazing the different sensations you get from these picks. You get Plain Ripple handles; Laminated Ripple handles, plus Laminated Core Ripple handles. A really fine selection of picks that will soon become your favorites. Set includes everything you see pictured, plus a nice soft-leather case. All tools are Tempered Stainless Steel and made in U.S.A.

30 Piece Ripple-Handle Pick Set
#MB67 $69.95

LOCK PICKS

Jackknife Pick Set

You cannot always carry your tool kit with you and you never know when you may be called upon to use your lock picking skills at an unexpected lockout. That is why this handy Jackknife Pick Set should go in your pocket at the start of every day. The folded size is 3/4" x 4" and it is shaped like a folding pocket knife. There are two rakes, 1 diamond, 1 hook and one tension tool in this complete pick set. Made of spring steel and reasonably priced to order an extra set. Get one for your pocket and one for your glove box!

Jackknife Pick Set
#HPC-JKP-5 $15.95

Methods of Entry Kit

This is a Door Bypass Kit with a wide assortment of tools to bypass approximately 80% of U. S. residential locksets. The kit will open the Smartkey (Kwikset) knoblock, Weslock, Schlage (new and old style) F series, and the Taiwan-style locks that are marketed under many different names such as: EZ -Set, Defiant, Guardian and others. Use any one of the tools once and you've paid for the kit. Comes with instruction CD.

Methods of Entry Kit
#BJMOEKT $110.00

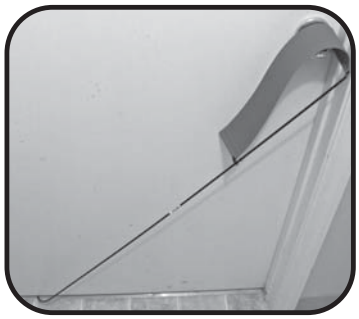
Door Knob Tool



Here is something really handy - an under the door tool that opens knobs! That's right - not lever handles but knobs! You won't believe it until you see it in action. A simple patented design grabs and rotates door knobs with very little skill or practice. Designed by a team of locksmiths and available to you from MBA USA.

The Ben-Jim Door Knob Tool
#BJ01 $99.00

SEE THIS TOOL IN ACTION!

www.mbaUSA.com

Lever Handle Tool

The BenJim corporation now makes a lever handle tool that many people consider easier to use and more effective than existing lever tools. This new tool will open virtually any door locked by a lever (handicap) style lock provided you can get the tool under the door. An air wedge from your car opening kit can be used to raise doors with limited clearance. Comes with instructions.

The Ben-Jim Lever Handle Tool
#BJ02 $79.00

Panic Bar Tool

New from the Ben-Jim Company - makers of the ingenious door knob opening tool. Their new Panic Bar tool can be used to open a variety of different panic bars hardware. Just insert the tool under the door and wedge the top of the tool behind the panic bar hardware. Pull on the attached cord to depress the panic bar and open the door. (As with all under-the-door tools, there must be sufficient clearance for the tool to be slid under the door).

The Ben-Jim Panic Bar Opening Tool
#BJ03 $99.00

Picks In A Pouch

Tired of bending or breaking your special-purpose picks? These Tempered Stainless Steel Picks are considerably stronger than some competing picks. The picks are made right here in the U.S.A. by a small, family-owned business. This neat set will be a welcome (and so convenient) addition to your pick kit. Kit includes:

- Set of 5 Stainless Steel Warded Picks
- Set of 4 Stainless Steel Chicago Picks
- Unique Tension Tool for the Chicago Picks
- Quick-Release Key Ring
- Real Leather Pouch

Picks In A Pouch
#MB63 $44.95

Deluxe Pick Set

The Deluxe Pick Set is perfect for the beginning or experienced locksmith. It comes complete with 10 picks, 4 tension tools, and 2 extractors. Each pick is made of a hardened spring steel, tempered to the perfect degree of hardness. The set includes a mix of rake, diamond, hook, ball, and double ball tip picks; light, medium, and heavy weight tension wrenches; and saw type key extractors. The Deluxe Pick Set comes in a genuine leather case which when zippered shut is a compact size (2-5/8"x6-3/8") carry in a shirt pocket.

Deluxe Pick Set
#HPC-NDPK $37.50

Tri-Fold Wallet Pick Set

High quality leather wallet comes complete with a selection of mini-picks and tension tools. There is plenty of room for your drivers license, credit cards, business cards, and even a little cash. This is one pick set you'll always carry and use.

Tri-Fold Wallet Pick Set
#HPC-TFW-5 $51.50

High Security Picks

Made in England, this pick set is designed to open high security pin tumbler locks such as "pin within a pin" and dimple key. There are 5 unique picking tools and 4 turning tools, in this set. All tools are stored in a leather case that snaps shut. Complete instructions are included.

High Security Picks
#PS04 $72.00

Tyro Pick Set

There are 6 picks, 2 tension tools and 1 broken key extractor in the Tyro Pick Set. The tools are all hardened spring steel and come in a snap-closed leather case. The compact size (1-3/4"x 5-5/8") makes it easy to keep a set of picks with you all the time.A bestseller!

Tyro Pick Set
#HPC-PIP-15 $17.95

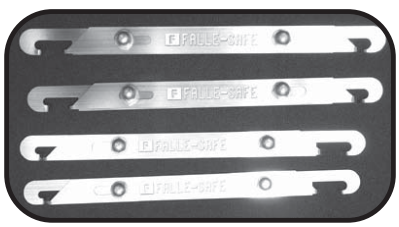
Falle Lock Picks

The finest pick set we have seen. We all know that *proper tension* is the secret to successful picking. Our remarkable pick set takes advantage of this fact to improve your picking success rate! Four *adjustable* and six *fixed* tension tools grab both the top and bottom of the keyway to give you tremendous control. The picks themselves have also been carefully designed. A pick does only one thing - lift pins. A good pick should therefore be thin enough to get into narrow keyways, plus be available in a wide range of curves to let you lift even the shortest, farthest pin to the shear line. MBA USA has sold these picks since our first catalog and we are pleased to continue to make them available.

Falle Lock Picks
#FS01 $295.00

Adjustable Tension Tools



These are the same tension tools available in the full pick set featured above. Sold as a set of four, these popular tools come in different widths which allow them to fit in most cylinders with ease.

Adjustable Tension Tools
#FS05 $75.00

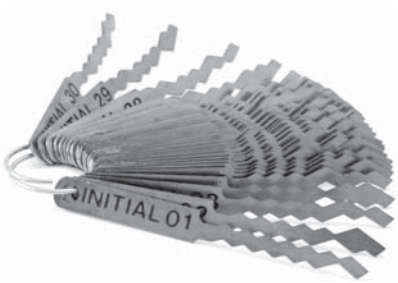
LOCK PICKS

"Super" Picks

We have re-packaged our "Super" picks to make them easier to use. We have included a tension tool and packaged them in a tube container that keeps all the parts together, ready to add to your tool box. The picks themselves consist of 16 double-ended picks which means there are actually 64 different "wave" configurations in a set! The computer designed "waves" are sharp and distinct, unlike other computer designed picks. They should be used like a key to lift the pins, applying light pressure with the tension tool.

Super Picks
#MB60 $64.95

Magic Keys



An exceptional set of "try-out" keys from France. These picks are extra thin to accommodate narrow keyways. There are 30 double-sided pick keys, giving a total of 60 different profiles. May be used with or without tension tools (not included). Add these affordable picking tools to your pick set today!

Magic Keys
#JP03 $59.95

Hands-Free Tension Tool

Everyone knows that correct tension is the secret to successful picking. The new "hands-free" tension tool from HPC is a clever addition to your pick kit. It consists of a moveable weight that can be placed at various points along a double-ended tension tool. The position of weight puts more (or less) picking tension on the plug, plus has the added advantage of being "hands-free". Comes with a double-ended pick and a handy storage clip.

Hands-Free Tension Tool Kit
#HPC-HF-TT-KIT $54.55

Double-Sided Pick Set

The Double-Sided Disc Tumbler Pick Set contains 4 picks that can be used on the most popular double-sided disc tumbler, showcase, cam, and padlocks. These picks are constructed of hardened spring steel. Comes in a plastic case.

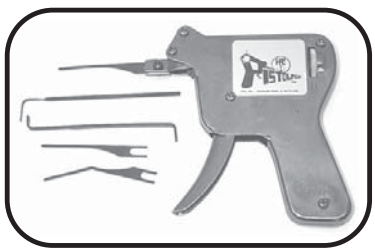
Double-Sided Pick Set
#HPC-DSP-1 $17.85

Padlock Shims

This padlock shim set is designed to open padlocks that have a spring operated shackle, single or double. There are 4 different sizes and each set comes with 5 shims of each size. The shims are made of steel and are re-usable. Instructions are included.

Padlock Shims
#MLC01 $27.00

Pistolpick™



"Pick Guns" are accepted as a practical and efficient alternative to traditional lock picking. Our Pistolpick™ is nickel-plated cold rolled steel for durability and protection against rust and corrosion. Comes with 3 pick blades and two tension tools. The Pistolpick™ is a must for every technician's "pick kit".

Pistolpick™ Pick Gun
#HPC-HPG-10 $36.75

WE ACCEPT

Key Jigglers

Key Jigglers are a combination tool - a pick and tension tool all in one! We offer three different sets, instructions included.

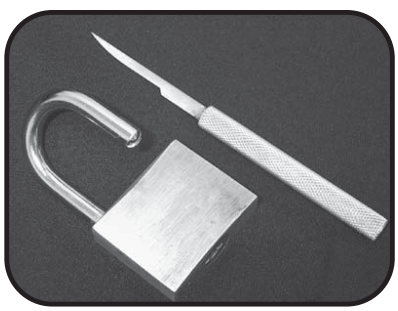
Regular Jigglers
#PS13-A $23.00

Mini Jigglers
#PS13-B $15.50

Micro Jigglers
#PS13-C $15.50

All Three Sets
#PS13-D $48.00 Save $6.00!

Stick Knife



Our favorite tool for opening a wide range of padlocks - no picking skill is necessary. Just use this tool to release the locking pawl through the keyway of the padlock. You will be amazed at how many inexpensive or imported padlocks can be opened quickly with our durable Stick Knife.

Stick Knife
#MB21 $25.00

Padlock Combs

Padlock Combs are effective on a wide variety of low cost solid-body padlocks. Many of these padlocks have pin chambers high enough to permit both the top and bottom pins to be lifted above the shearline. This set of combs contains a good assortment of various space and lift combs to work on many padlocks. Complete with instructions.

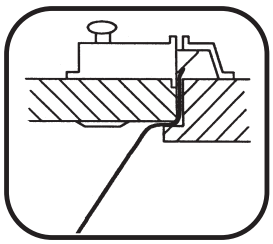
Padlock Combs
#NS01 $ 395.00

Lever Handle Tool

This clever tool has come to the rescue of more locksmiths than we can count. It doesn't matter how pick-resistant the mechanical or electronic door lock is, this will open them so fast it's scary. Certain basic conditions must apply - like a reasonable gap under the door and an interior lever handle. And of course, you must be a locksmith or law enforcement personel to purchase.

Lever Handle Opening Tool
#K-22 $34.00

Super Mica



Super Mica are specifically designed to be used on spring bolt locks. They are flexible yet strong and can be mastered with very little practice. The micas measure 4"x6-1/2" and are two different thicknesses. Come pre-punched so you can use them with the handle (sold below). Set of 6.

Super Mica
#PS10 $16.50

Easy Grip Super Mica Handle
We now offer a handle for the Super Mica. This easy-to-grip handle helps reduce the risk of injury when using the micas. The handle screws together with the mica in between - just line up the pre-punched holes in the mica with those in the handle. Use over and over.

Super Mica Handle
#PS10-A $24.00

Flip-It™

Flip-It™ will flip the cylinder plug past the upper pins and save you the job of repicking. It has features which prevent overwinding and an easy release from rotation.

Flip-It Tool
#HPC-FIT-2 $53.75

THANK YOU FOR YOUR ORDER - WE APPRECIATE YOUR BUSINESS!

RESTRICTED ITEMS:

Many of the items offered in this catalog are available only to locksmiths, representatives of recognized government agencies or other security professionals. Please be prepared to offer documentation.

MINIMUM ORDER:

There is a $25.00 minimum order requirement.

TERMS OF PAYMENT:

Credit Cards: MBA USA, Inc. accepts Visa, Master Card, American Express and Discover. We welcome IMPAC cards.

Checks: We accept checks drawn on U.S. funds from either domestic or foreign banks. There is a waiting period for checks to clear (except for money orders or certified checks) prior to shipping. All returned checks will be charged $20.00 per check, per return.

Purchase Orders: Accepted with prior approval only.

Accounts: MBA accepts account billing. A credit application is provided in this catalog. No orders will be sent on credit without approval of application. Accounts will only be established for customers in the U.S.

Wire Transfers: Foreign purchasers should contact MBA USA, Inc. to arrange for bank transfers of payment.

COD: Sorry, MBA does not accept COD payments for orders. Please send a pre-paid money order or cashiers check for order total including shipping if you not choose to pay by credit card.

PRICES:

Prices are subject to change without notice. Prices do not include taxes, customs fees or duties.

DELIVERY:

We ship most credit card orders within 48 hours and will notify you of any back orders.

QUOTES:

Prices quoted by MBA are valid for 30 days from the date on the quote.

SHIPPING:

A reasonable fee is added to all orders to help defray the cost of packing, shipping, and insurance. Carrier is selected at the discretion of MBA USA, Inc. Call for quotes on expedited shipping fees (Next or Second Day) or for fees on shipments outside the 48 contiguous states.

RETURN POLICY:

We make every effort to provide high quality products to our customers. If upon receipt of any of our products (excepting those few with return restrictions), you are not satisfied, you may return any item undamaged within 10 days for a refund or exchange. You must call MBA for return authorization and include your invoice with your return. There is a 15% restocking charge on some items. Shipping charges are not refundable.

CD-ROM/DVD products are returnable for exchange only of identical item - no refunds will be given.

CATALOG CONTENTS:

Products offered and availability of those products are subject to change without notice. Errors and omissions in this catalog are subject to correction. We reserve the right to change prices at any time and without notice. We may also change the contents of kits without notice by adding to, removing or substituting items as described in this catalog. We are always happy to quote you current prices at the time you order any product. And remember, our web site is more current than the catalog so please log on often to check prices and new items added after the printing of this publication.

MAILING LIST:

MBA USA, Inc. needs your help in maintaining our mailing list. Please write us or call toll free to inform us of errors or changes in your mailing address or if you are receiving duplicate mailings. *Our customer information is confidential and never made available to other companies.*

2008

When you take classes from MBA, you receive personalized training from qualified instructors with real world experience. We don't just talk the talk - our three main instructors have a combined sixty five years plus of experience in nearly every phase of the lock industry. We continually study locks and new technology to stay current with the latest industry trends and developments. **Our classes are small - never more than 9 people.** We contend that personalized, hands-on instruction is best for our students. If small class size is important to you, we advise you to "check it out" before committing to a class that may contain 30 people or more.
On the next few pages you will find brief descriptions of some of our outstanding classes. **Please call 1-888-622-5495 or see complete descriptions on our web site www.mbaUSA.com.**

Our Instructors

Mark Bates, CML

- Founder and President of MBA USA, Inc.
- 25 years experience in the lock industry
- Author of Modern Safe Locks and numerous articles

Martin Newton

- Lever Lock Expert
- Experienced with covert entry
- Available to select agencies

Ed Woods, CML, CPS

- Automotive lock expert
- Transponder Expert
- Tool design consultant

Training Classes

GSA CERTIFIED SAFE & VAULT TECHNICIAN COURSE

This course will certify the student to service, neutralize, and repair GSA approved security containers and vault doors.The Department of Defense and other federal departments are moving toward making this certification a requirement for anyone performing almost any type of service on these containers including periodic preventive maintenance inspections.
The training begins with combination locks used on GSA containers including the latest FF-L-2740 and FF-L-2937 approved locks. GSA container identification, proper servicing, drilling, and repair are also covered. The course concludes with coverage of federal specifications and regulations concerning GSA containers and what are to be stored in them.
As an option, a one day extension can be added to the Technician course for GSA Inspector qualification. This optional day is immediately after the conclusion of GSA Certified Safe and Vault Technician Course. By becoming a GSA Approved Inspector, the student will also be qualified to perform recertification inspections on GSA containers when there is any reason to doubt their security integrity. Both of these qualifications have been approved by GSA and are valuable credentials for anyone performing work on GSA containers or vault doors.

11 days $2,750.00
10 days (without option) $2,500.00

BASIC GSA APPROVED CONTAINER INSPECTION COURSE

This course was developed to take the guess work out of whether a container is suitable or not.
It allows for the identification of containers that are vulnerable, yet permits the preservation of containers that are not being used due to minor flaws - such as lack of a GSA label.
The individual who successfully completes this training program will be authorized by GSA to inspect GSA containers and apply new "Recertified" labels to that container. These inspectors must be meticulous in their workmanship, maintain ongoing contact with the training organization, and attend continuing education programs as required by GSA.
3 days - $750.00

INSPECTOR RENEWAL COURSE

Inspectors who have previously passed the Basic GSA Approved Container Inspection Course may renew their term as inspector by taking this class. The renewal is granted for three years and can be taken by MBA or LSI graduates.
2 days - $495.00

LOG ON FOR DETAILS

X-07/08/09 MASTER CLASS

This class was designed to cover all aspects of each lock that is acceptable for GSA containers under Federal Specification FF-L-2740. Installation and operation is covered for each lock as well as troubleshooting.
3 days - $750.00

GSA CONTAINER IDENTIFICATION

This class is designed to be taken prior to the Basic GSA Approved Container Inspection Course. Learn how to make your best determination as to original Label Color, Manufacturer and Class of the GSA container you are dealing with or even if the container was never approved by GSA. 1 day - $250.00

Training Classes

NEW

S&G MODEL 2740 LOCK TRAINING

The Sargent & Greenleaf model 2740 safe lock was designed to meet Federal Specification FF-L-2740 and is approved for use in protecting our nation's classified materials. The manufacturer requires that technicians successfully complete this approved training program to be listed in their 2740 recommended technician database.

The course will provide instruction in the installation, setup, and programming of Sargent & Greenleaf model 2740 combination lock. The course is concluded with a written test developed by the manufacturer on which students must achieve a minimum score of 80% to become a registered technician. 1 day - $250.00

NEUTRALIZATION & REPAIR OF GSA APPROVED CONTAINERS

This class teaches methods for opening and repairing GSA Security containers authorized by Federal Std. 809.
2 days - $495.00

GSA CERTIFIED SAFE & VAULT TECHNICIAN ONLINE TESTING PROGRAM

MBA USA, Inc. has been approved since January 2008 to offer our 10-day GSA Certified Safe and Vault Technician course. GSA has now given us approval to conduct our GSA Certified Safe and Vault Technician Online Testing Program. This is an opportunity to gain GSA certification without attending the course in-house, saving travel expenses and time away from work. However, the series of online exams is NOT an online training course or a shortcut to certification. By signing up for the online testing program, the enrollee is asserting they already have the knowledge and skills to pass the exam. MBA USA will provide reference material and have instructors available to answer general questions but the enrollee must pass the tests and exams on their own.
Contact MBA for more information.

10 DAY FUNDAMENTALS OF LOCKSMITHING

Fundamentals of Locksmithing is a 10 day class that teaches the skills necessary for anyone who works with key locks. It was created to give those who are just starting a career in locksmithing a solid background in the basics. It is also ideal for those who are considering a locksmithing career but wish to learn more about the trade first. 10 days - $2,500.00

SAFE LOCK MANIPULATION

Learn how to open U.L. listed Group 2 combination locks through the use of touch, sight, and sound. If you have struggled with correspondence courses, or learned the old fashioned methods taught by other schools you are in for a real eye opener! Throw away those graphs and books and learn real manipulation in just two days. The student should have a good understanding of safe lock basics before taking this class. 2 days - $495.00

These classes can be scheduled for your group. Call MBA for more information 1-888-622-5495.

COMBINATION LOCK TECHNOLOGY 1

This class was designed to give the participant a solid background in servicing and troubleshooting mechanical combination safe locks. It is ideal for both beginning and intermediate level locksmiths and safe technicians. In the extensive troubleshooting section, the student will learn how to deal with a wide variety of both common and unusual lock problems.
2 days - $495.00

SAFE DEPOSIT LOCKS

This class was designed to give the participant a solid background in servicing safe deposit locks. There are hundreds of varieties of locks in use in countless banks, hotels, and other businesses across America. There is a constant need for technicians who can install, re-key, and open safe deposit boxes when keys are lost or the lock malfunctions. Don't let your competition get all the "gravy" jobs - add this lucrative service to your list of skills.
2 days - $495.00

TIME LOCKS

This one day program can make you comfortable with the basics of time locks in just one day. You will not be a watchmaker at the end of the day but you will be capable of the basics including correcting overwinds, servicing and synchronizing cases, and understanding the fundamentals of ultasonic cleaning. 1 day -$300.00

PROFESSIONAL SAFE DRILLING

Learn the skills needed to open safes like an expert. Drill site selection, dial removal, drilling apparatus, drill bits, borescopes, number transferring, relock triggers, emergency dials and more are covered in this class. 1 day - $350.00

TACTICAL TRAINING

NOTE: Tactical training courses are restricted, and offered only to recognized Military, Police, and other Government Agencies. Each course is customized according to input from the requesting agency, and closed to other attendees. Courses run for either five or ten days, depending on the content you select. You get training customized to your needs in a private classroom - a winning combination! (Classes are best when held to a maximum of 6 participants.)

Tactical Course Content: All Tactical courses are focused on the operator who must access locks covertly. Each course is designed to foster an in-depth understanding of the locking systems in question.
Courses offered:

Tactical Locksmithing - Covers commercial and residential locks commonly found in North America.

Tactical Lever Locks - Covers key-operated door locks and safe locks found outside North America.

Tactical Automotive - Covers key generation for the passenger compartments and trunks of a wide range of vehicles.

Tactical Safe Locks - Covers identification and manipulation of mechanical combination locks found on safes, as well as manipulation of combination padlocks.

Please contact us regarding your requirements so we can prepare a quotation.

ENROLLMENT APPLICATION
